Program Information:

Program Description as Provided by Genesee Intermediate School District: The Genesee Intermediate School District Bridges Plus program involves a model of close collaboration with parents and teaching staff to determine what assessments have been previously been used, the students' scores, and the most effective learning strategies. In all cases, GISD tries to utilize the schools' resources, such as library books, computer labs, and classroom texts, so that enhancement lessons can be created that reinforce and teach the concepts being delivered by classroom teachers during the day. The effectiveness of this approach has been cost effective and positive for students. The tutoring sessions are held after school, onsite, at the assigned buildings. The length of sessions varies from 1 to 2 hours per day, twice weekly, flexible weekend and summer hours are available. The minimum number of Bridges Plus is two students. Tutors have training, laptops, manipulatives, games, and other educational materials that create memorable experiences for students.

The program description was created by the provider and has not been edited by the Michigan Department of Education.

Number of Students Served in 2007-2008:
