Program Information:

Program Description as Provided by Brilliance Academy of Math and English: Brilliance Academy offers a high quality and individualized tutoring service to your student at your child's school. Students are academically diagnosed through a standardized assessment. When we know where your student is academically, Brilliance Academy creates a customized, individualized teaching plan that addresses your student's specific needs. Our curriculum is aligned with state and national standards. Your student will also be evaluated to ascertain all favored learning styles. So whether your child learns better by seeing, hearing or touching, the tutor will be able to help each individual. At Brilliance Academy we hire high quality, experienced instructors who are National Tutoring Association certified and who have a passion for teaching. In addition to our after-school services, all students will also have access to the Brilliance Academy Homework Help Hotline where they can call and speak to a live tutor five days a week!

The program description was created by the provider and has not been edited by the Michigan Department of Education.
