Program Information:

Program Description as Provided by My Teaching Tools, Inc.: Program Summary: My Teaching Tools, Inc. professionals account for the interactive nature of the learning process. This model of instruction considers the student's individual characteristics as an integral part of instructional planning and incorporates it into the Teacher-Learner experience. Our team of qualified educators provides supplemental instruction in reading and mathematics for learners in grades 2-5. Research-based subject assessments are utilized to assess academic needs; set goals that bridge gaps in performance; and incorporate validated instructional strategies that enhance the learner's ability to transfer what is learned beyond the classroom. Instructional materials are aligned with the Michigan Curriculum Framework Grade Level Content Expectations and delivered by educators who possess State of Michigan teaching certification, as well as other trained professionals. Students are serviced twice weekly, two hours per session in small group ratios of one teacher to five students over an eight-week period during the fall and winter semesters.

The program description was created by the provider and has not been edited by the Michigan Department of Education.
