Program Information:

Program Description as Provided by Developing Math Concepts LLC: DMC's instructional approach is aligned with Michigan's Framework of Mathematics and Language Arts standards. DMC's focuses its' lessons on differentiated instructions to encompass the student's different learning styles in order to reach and teach all learners. All tutors are highly qualified in Math or Reading, undergo background checks, have ongoing monthly workshops to reflect on student achievement, and access to focus groups and a mentor teacher to help facilitate learning. Our sessions usually last 3 to 4 months offering a variety of options. We have Saturday programs lasting 3 to 4 hours and in-school sessions usually 2 days 2 hours per day for 3 to 5 months. All students are given pre-test, information assessed, learning plan created from data and shared with all stake holders, academic team focuses on goals generated, then post-test given at end of session. Data (progress) always shared with all stakeholders.

The program description was created by the provider and has not been edited by the Michigan Department of Education.

Key: "A" – substantially above average, "B" – above average, "C" – average, "D" – below average, "E" – substantially below average, "<10" – fewer than 10 students were served for this subject/grade and results are suppressed to protect the confidentiality of students' information.

The analysis of MEAP scores is based on students served in the 2008-2009 school year.

How the Statistics Were Calculated:

Impact on the MEAP score is based on a hierarchical linear regression analysis focused on MEAP scores in fall 2009 for students receiving SES in the prior school year. The scaled math and reading scores of SES participants were compared to a matched control group of students not receiving SES. These nonparticipating students were drawn from the same school buildings and grades as SES participants, and matched to SES recipients on the basis of their 2008 MEAP scores, economic disadvantage status, special education status, and limited English proficiency status. The analysis controlled for the effects of students' schools and the 2008 MEAP score.

The overall grade is a weighted average of the consumer satisfaction and academic achievement data. Additional information is available upon request from the Michigan Department of Education.
