Children’s Special Health Care Services Insurance Premium Payment Benefit

Children's Special Health Care Services (CSHCS)

CSHCS could pay for all or some health insurance premiums when families cannot afford to pay.

The premium must cost CSHCS less than the cost of the medical bills. The benefits of helping families pay for premiums include:

- Maintaining private health care coverage for CSHCS clients. Private health insurance is important, since CSHCS only pays for specialty care related to the qualifying condition.
- Reducing the amount of money CSHCS must pay which ensures the program is available to more families.

The insurance premium payment can be for insurance from:

- Employers.
- Health Insurance Marketplace.
- Medicare.
- COBRA coverage.

If COBRA becomes available to you, please notify your local health department as soon as possible.

Insurance can be through any of the following:

Employment

Some families can not afford insurance premiums.

Health Insurance Marketplace

The Federal Affordable Care Act (ACA) makes insurance available for almost everyone.

- People without insurance should apply through the health insurance marketplace.
- Children with special health care needs are still eligible for CSHCS even if they receive health care insurance.

COBRA Coverage

Consolidated Omnibus Budget Reconciliation Act, or COBRA, is a federal law that requires employers with 20 or more staff to make insurance available for a period, under certain circumstances. If COBRA becomes available to you, please notify your local health department as soon as possible.

Medicare

This includes people who have or are eligible for Part B or Part D coverage.
