SAFE DELIVERY FACT SHEET

Enacted on January 1, 2001 and amended in December 2006, Safe Delivery allows for the anonymous surrender of an infant (within 72 hours of birth) to an Emergency Service Provider (ESP) without the expressed intent to return for the newborns. ESP’s are defined as a uniformed or otherwise identified employee or contractor of a fire department, hospital, or police station when that individual is inside the premises and on duty. ESP also includes a paramedic or an emergency medical technician when either of those individuals is responding to a 9-1-1 emergency call.

The intent of the law was to allow for an anonymous safe surrender of the newborn without fear of prosecution and to make the child available for adoption. Private adoption agencies assume responsibility for the child as soon as medical authorities determine that the child has not been neglected or abused and that the infant is not more than 72 hours old.

2009 Statistics

Number of surrenders: 19

• 1/4/09 Wayne County. A 19-year-old woman attempted to surrender a newborn at a hospital. This case could not proceed under Safe Delivery as it was determined that the child was eligible for tribal membership in a federally recognized Indian tribe. The tribe determined that the child was eligible for tribal membership which resulted in the case being covered under the Indian Child Welfare Act (ICWA). (Note: this case is being counted in the number of Safe Delivery cases for this year because the newborn was initially surrendered by the parent to an Emergency Service Provider. However, the case did not result in an adoption under the Safe Delivery of Newborns law.)
