

## **Rail Infrastructure Loan Program - Report for Fiscal Year 2013**

This report on the rail infrastructure loan program is required under Section 15a (4) of Public Act 295 of 1976, as amended (MCL 474.65a(4)).

Originally established under appropriation boilerplate in 1997 to help finance capital improvements on Michigan's freight railroad infrastructure, the rail infrastructure loan program, also known as the Michigan Rail Loan Assistance Program (MiRLAP), was created in statute in 2002. The loan program helps preserve and improve freight railroad infrastructure by making interest free loans to railroads, local governments, economic development corporations, and current or potential users of freight railroad services for qualifying projects. Money received as repayment for loans made under this program, together with interest earned and any penalties assessed and received for failure to repay loans on time are credited to the fund to be allocated for the purposes of the program. Through this revolving fund, loans can continue to be made for rail infrastructure improvements in perpetuity.

The program has made nearly \$15.3 million in loans since its inception. In all, thirty-seven loans have been awarded to twenty-six separate applicants throughout the state.

### **Rail Infrastructure Loan Fund**

At the beginning of fiscal year (FY) 2013, the balance of the Rail Infrastructure Loan Fund was \$7,779,449.01. Interest earnings of \$6,513.26 increased the fund balance to \$7,785,962.27.

### **Status of Projects**

No new call for projects was held during FY2013, and no new contracts awarded.

Information on all currently-outstanding loan contracts funded under the program, as well as all loans paid in full during FY2013, is provided on the attached chart entitled "Status of Rail Infrastructure Loan Agreements". All loans remain in good standing.

### **Loans Outstanding**

At the beginning of FY2013, outstanding loans amounted to \$2,483,955.29. Loan repayments of \$674,070.33 reduced the amount of outstanding loans to \$1,809,884.96. No additional disbursements were made in FY2013.

### **Amount Available for New Loans**

At fiscal year end 2013, the Rail Infrastructure Loan Fund had a balance of \$7,785,962.27. The fund has outstanding loans of \$1,809,884.96, leaving \$5,976,077.31 available for disbursement. An additional \$5,459.71 is obligated, but not yet disbursed, leaving an unobligated balance of \$5,970,617.60.

## **Rail Freight Fund – Report for Fiscal Year 2013**

This report on the Rail Freight Fund (RFF) is required by MCL 474.65a(4). The Department's authority to deposit funds in the Rail Freight Fund and to provide financial assistance for facilities of rail freight and marine freight transportation is specified in MCL 474.67.

The amount of the fund at the beginning of FY 2013 was \$1,298,568.64. Revenues totaling \$640,105.59 increased the balance to \$1,938,674.23. No expenditures were made from the fund during the fiscal year, leaving the fund balance at the close of the fiscal year \$1,938,674.23.

The balances above include an outstanding encumbrance totaling \$211,884.40, which is being held in escrow relating to a loan to Global Engine Asset Co, LLC.

No new projects were funded from the RFF in FY 2013.

The FEDP projects that previously received funding from the RFF and are still under contractual obligation to repay the loans are listed on the attached chart entitled, "Status of Freight Economic Development Loans that Received Funding from the Rail Freight Fund".

Office of Rail  
Michigan Department of Transportation

## Status of Active Freight Economic Development Program (FEDP) Loans that Received Funding from the Rail Freight Fund

Company	Contract No.	FY	Total Cost of Project	Amount Funded from RFF	Amount Disbursed	Amount Paid Back
Global Engine Asset Co., LLC *	2004-0339	2004	\$1,059,422.00	\$339,252.61	\$529,711.00	\$244,553.17
Dearborn Steel Center	2011-0228	2011	\$316,775.00	\$158,387.50	\$92,775.60	\$0.00
<i>Total FEDP Loans - Funded from the RFF**</i>			\$1,376,197.00	\$497,640.11	\$622,486.60	\$244,553.17

\* Global Engine Asset Co., LLC (2004-0339) received \$529,711.00 in FEDP loan funding; however, only \$339,252.61 was from the Rail Freight Fund; the balance of funding was from other sources. In FY 2010, \$423,768.80 was returned to MDOT from the existing Letter of Credit (LOC) when the company could not obtain a new LOC to secure the loan. Of this, \$211,884.40 remains held in escrow.

\*\* These are FEDP loans active during FY2013 and funded, at least in part, from the RFF. The recipients are under contractual obligation to repay the loans unless they meet certain rail usage requirements.
