## Control Room Coverage

### Control Room Hours of Operation

Time Period	Days	Hours
October – April	Monday – Friday	6 am – 8 pm
	Saturday – Sunday	As needed
May – September	Monday – Thursday	6 am – 8 pm
	Friday	6 am – 9 pm
	Saturday	12 pm – 6 pm
	Sunday	4 pm – 8 pm
Special Events	All	As needed
Holidays and Holiday Weekends	New Years Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, Christmas	As needed

The following report is limited to data collected during the hours of operation for the control room and within the ITS device coverage area.

## Traffic Management Center News

The early work on several new construction projects in the Grand Rapids area generated a significant increase in control room communication and required some weekend operator shifts in March.

The number of incidents in March was less than the previous 12-month average, though more than 40% of the incidents were crashes. Of the crashes that occurred, 60% caused lane, ramp, or total freeway closures.

Local law enforcement and emergency services personnel continue to clear incidents quickly and efficiently in the Grand Rapids area, reducing the delay experienced by motorists. The number of incidents that had a duration of greater than 60 minutes and 30 minutes were down significantly as compared to the previous 12-month average.

## Traveler Information Activity

- The MDOT ITS Control Room provides traffic information to freeway users via 10 dynamic message signs (DMS) positioned in key locations along the freeway system in the greater Grand Rapids area.

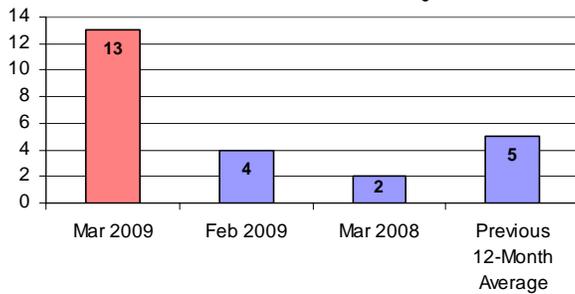

### DMS Messages by Type

### Top Three Utilized DMS

1. Northbound US-131 at 28th Street
2. Southbound US-131 at Ann Street
3. Westbound I-196 at Plymouth Avenue

## DATA KEY INFORMATION

Table	Description	Purpose	Data Source
<b>Month Total of Unplanned Incidents per Weekday Hour</b>	Displays the total unplanned incidents for 1-hour increments over a 24-hour period.	Provides a snapshot view of variability of incidents by time of day.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Monthly High Impact Unplanned Incident Activity</b>	Displays the number of major unplanned incidents for the current month, previous month, month last year and the monthly average for the previous 12 months.	Provides a snapshot view of the major incidents that affect the roadway and freeway interchanges along with historical data.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Total Monthly Unplanned Incidents by Roadway</b>	Displays the total unplanned incidents by freeway and the density of incidents based on freeway coverage.	Provides a snapshot view of the number of incidents per freeway per month.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Monthly Communication History</b>	Displays the number of telephone calls and emails (incoming and outgoing) for the Control Room Operators for the current month, previous month, month last year and a monthly average for the previous 12 months.	Provides a snapshot view of the control room workload in a historical context.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Calls and Emails by Type</b>	Displays the number and types of call and email activity for the Control Room operators, separating incoming and outgoing calls.	Provides a snapshot view of the Control Room call distribution and any apparent trends with the call volume or type.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Calls by Type</b>	Displays the percentage distribution of call activity for the Control Room operators.	Provides a snapshot view of the Control Room call distribution and any apparent trends with the call volume or type.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Emails by Type</b>	Displays the percentage distribution of email activity for the Control Room operators.	Provides a snapshot view of the Control Room email distribution and any apparent trends with the email volume or type.	Manually entered information by the operator.

## DATA KEY INFORMATION

Table	Description	Purpose	Data Source
<b>DMS Messages by Type</b>	Displays the total number of DMS messages by type that occurred during the month.	Provides a snapshot view of the level of effort and need related to DMS messages.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Top Three Utilized DMS</b>	Displays the top 3 DMS in terms of the number of unique messages displayed for the month.	Provides a snapshot view of the "most active" DMS for traveler information, which may indicate areas where additional DMS or other forms of traveler information may be necessary.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Monthly Incident Notification History</b>	Displays the number of email incident notifications sent out by Control Room Operators for the current month, previous month, month last year and the monthly average for the previous 12 months.	Provides a snapshot view of the control room workload in a historical context.	<b><u>QA/QC Log</u></b> Manually entered information by operations supervisor.
<b>Monthly Incident Notification Communication Accuracy</b>	Displays the accuracy of email incident notification messages sent out to stakeholders. Accuracy measures include format and content.	Provides a quantitative method of quality control on operator interactions with stakeholders.	<b><u>QA/QC Log</u></b> Manually entered information by operations supervisor.

## DATA KEY INFORMATION

Table	Description	Purpose	Data Source
<b>Incidents Managed by Type</b>	Displays the distribution of incident types.	Provides a snapshot view of the composition of incidents.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Vehicle Composition of Incidents</b>	Displays the number of incidents that involved commercial vehicles compared to passenger cars for each incident type.	Provides a snapshot view of the incidents involving commercial vehicles.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Incident Duration History</b>	Displays the total number of incidents compared with the number of incidents with durations exceeding 30 minutes and 60 minutes. (current month, previous month, month last year and the monthly average for the previous 12 months.)	Provides a snapshot view of the duration of incidents managed by the control room.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Traffic Impacts by Incident Type</b>	Displays traffic impact distributions by incident type.	Provides a snapshot view of the typical traffic impacts for each incident type.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.
<b>Incident Hot Spots</b>	Displays the most frequent locations for accidents and disabled vehicles.	Provides a snapshot view of where operators should concentrate their attention.	<b><u>Control Room Activity Log</u></b> Manually entered information by the operator.

## DATA KEY INFORMATION

Table	Description	Purpose	Data Source
<b>Overall Camera System Availability</b>	Displays the percentage of CCTV camera availability for the current month, previous month, month last year and the monthly average for the previous 12 months.	Provides a snapshot view of system availability in relation to historical data.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Individual CCTV Camera Availability</b>	Displays the percentage of time each individual CCTV camera is functioning at full, partial and zero capacity.	Provides a detailed view of ITS system availability.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Overall DMS System Availability</b>	Displays the percentage of Dynamic Message Sign availability for the current month, previous month, month last year and the monthly average for the previous 12 months.	Provides a snapshot view of system availability in relation to historical data.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Individual Dynamic Message Sign Availability</b>	Displays the percentage of time each individual Dynamic Message Sign is functioning at full, partial and zero capacity.	Provides a detailed view of ITS system availability.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Overall VSS System Availability</b>	Displays the percentage of Variable Speed Sign availability for the current month, previous month, month last year and the monthly average for the previous 12 months.	Provides a snapshot view of system availability in relation to historical data.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Individual Variable Speed Sign Availability</b>	Displays the percentage of time each individual Variable Speed Sign is functioning at full, partial and zero capacity.	Provides a detailed view of ITS system availability.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
<b>Incidents by Freeway Segment</b>	Displays incident density per segment of roadway within the ITS device coverage. Red indicates a freeway with the highest incident density. Dark orange, light orange and light yellow represent decreasing levels of density, respectively.	Provides a graphic representation of incident density to assist in choosing locations for future ITS devices.	<b><u>Daily Shift Report</u></b> Manually entered information by the operator.
