

**RFQ for the I-75 under US-10 Bridge
Replacement DB Project
Bay Region, Bay County
JN 122868 – CS 09034**

**Q&A #2
7/15/2014**

Question 1: Could you please clarify who/what you are looking for in section 3.4 submitter's experience you state you want:

“b. Owner's construction engineer, design engineer and geotechnical engineer and their current telephone number;”

Do you mean “or” instead of and?

If “and” as a contractor, how would we know (or have on file) who the owner's “design or geotechnical engineer” of record would be for a project we may have constructed? Is that really needed?

If we use a previous design-build project for experience, technically the contractor's engineers are the design & geotechnical engineers of record. Is that who you want listed?

Answer 1: If otherwise unknown, the responsible design engineer would sign the title sheet. Include this information. List the geotechnical engineer if known.

If a design-build project is used for experience, list the responsible design and geotechnical engineers.
