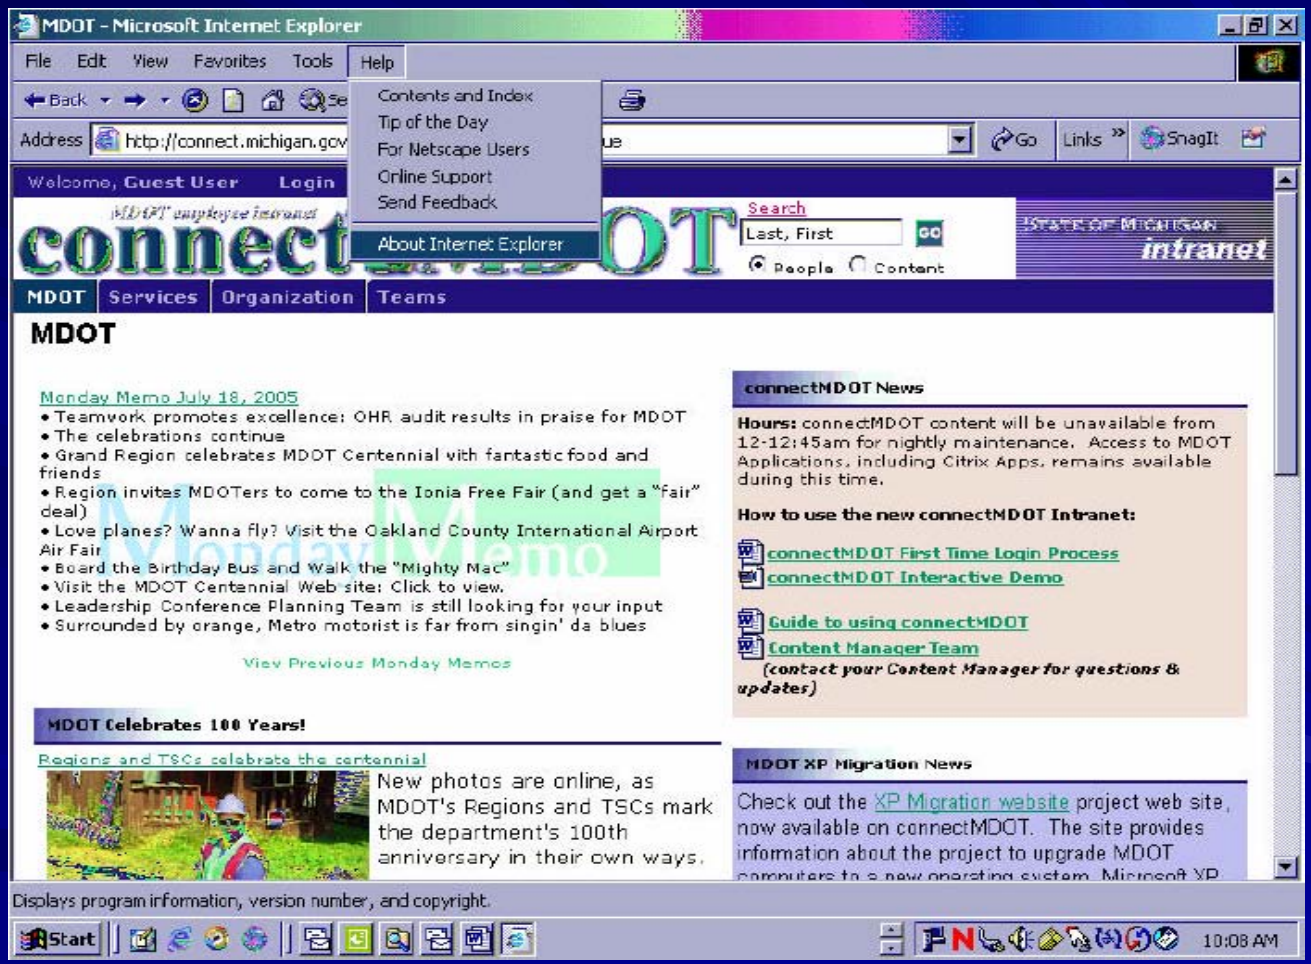
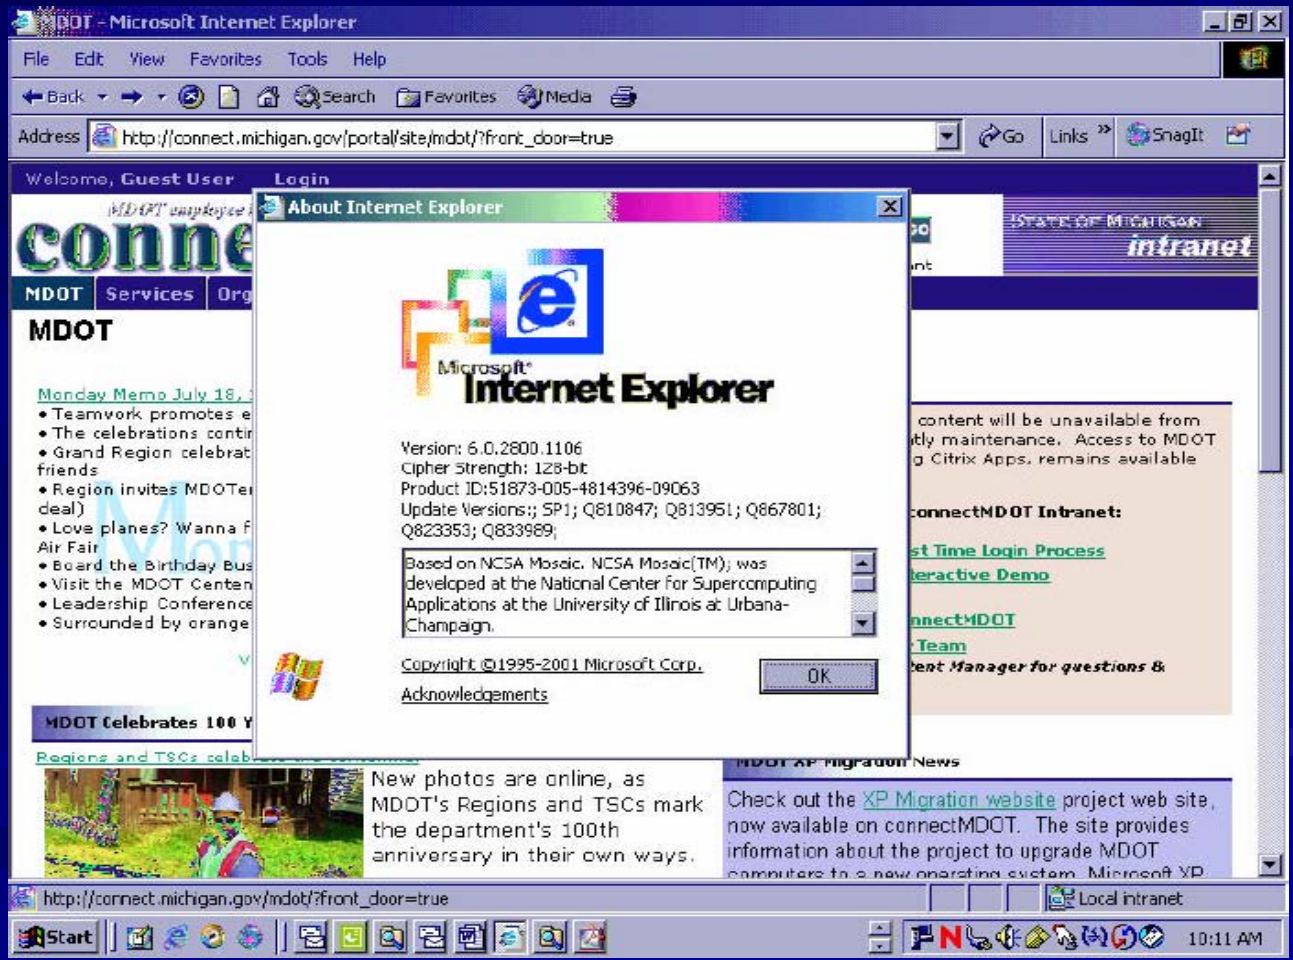
MIPARS WEB GETTING STARTED

- You will need internet explorer 5.5 or above.
- How do I find out which version I have on my computer?

MIPARS WEB GETTING STARTED



MIPARS WEB GETTING STARTED



MIPARS WEB GETTING STARTED

- You will also need JAVA software. This is free “plug-in” software that will enhance the ability of your browser to bring up graphic files.
- If you don’t already have this software on you computer, you should automatically be prompted to install it the first time you try to access the map.

MIPARS WEB LOGIN

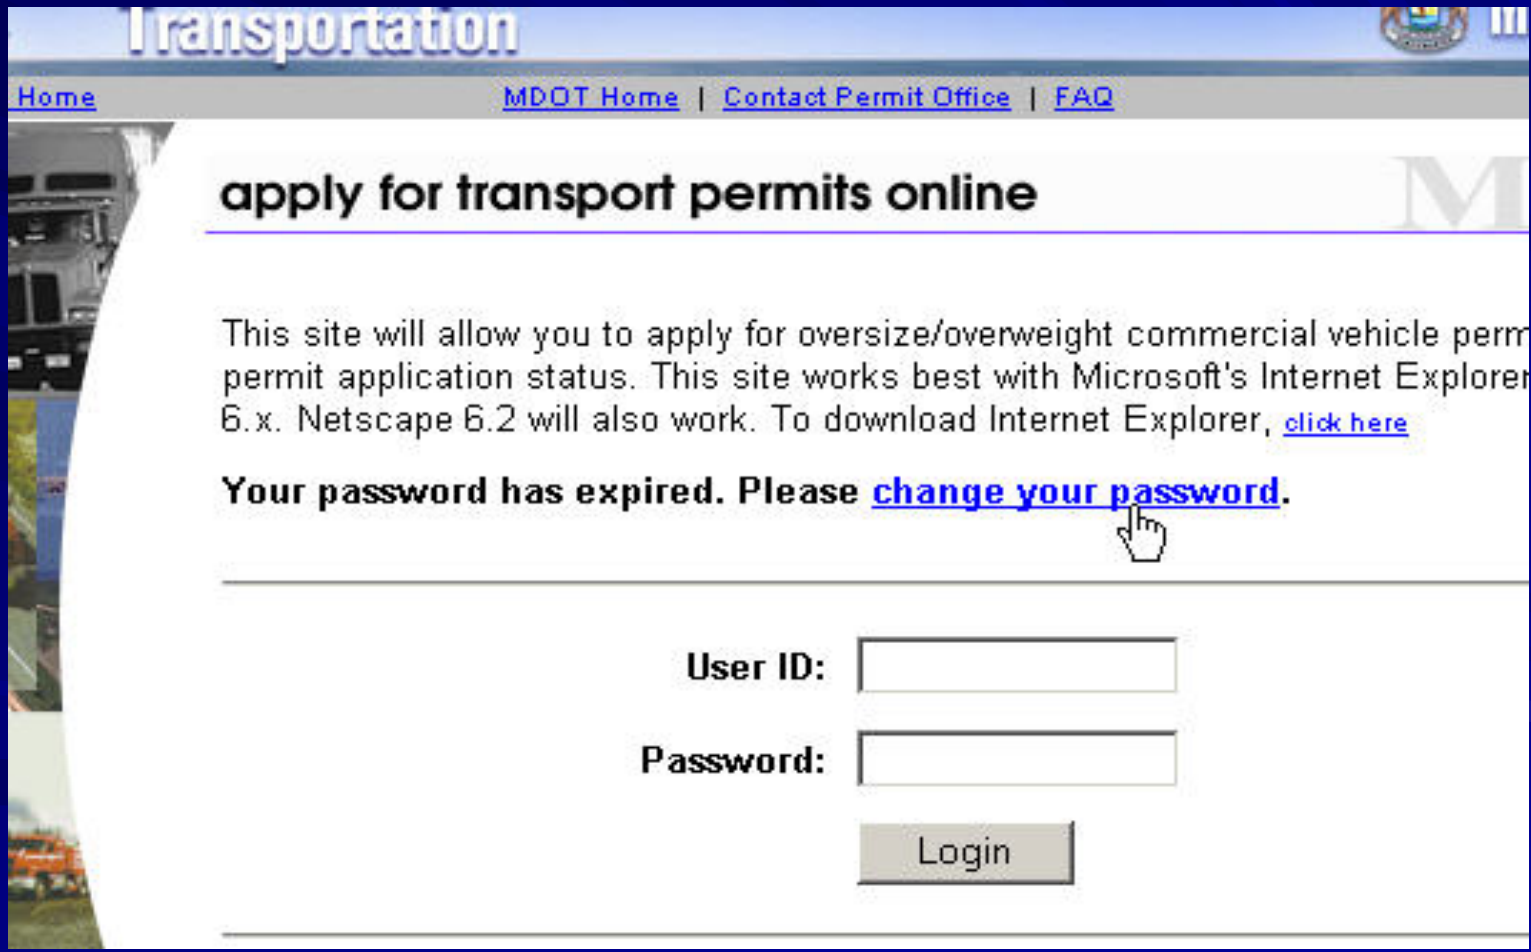
- As in previous releases the Permit Unit can reset your password, but we are not able to “see” passwords and cannot tell you what your present one is.
- Passwords will need to be at least 8 characters long but can be longer.
- At least one character of the password needs to be a numeral **but your password cannot start with a numeral**
- Passwords will expire after ninety (90) days.
- You cannot reuse the same password but chadguy1 could become chadguy2 and comply with the update requirement.
- Password are case sensitive so ChadGuy1 is different than chadguy1

MIPARS WEB LOGIN



MIPARS WEB LOGIN

- Line 1 - Your user ID is the permanent one given to you when you opened your account.
- Line 2 - Your current password (or the temporary password assigned to you if you are new to the system).
- Line 3 - Your new password is the one you have decided upon using the password rules above
- Line 4 - Confirm—reenter your new password
- Click the Change Password bar
