E. Qualification Statement

Candidates shall have substantial experience in or directly related to public agency highway and bridge construction projects with or on behalf of federal, state, or local government agencies, particularly MDOT. Experience shall be a minimum of 10 years in active involvement, supervision, or management of public agency highway and bridge construction contracts preferably with an emphasis in resolution of disputes arising out of said contracts. Lawyers, attorneys, and/or legal counsel are not permitted to be DRB candidates nor are they permitted to serve on a DRB panel in any capacity.

**Michigan Department of Transportation (MDOT)
Candidate Application for Dispute Review Board (DRB)**

Provide a 500 word or less statement of your qualifications that explain how you meet the aforementioned criteria:

Over thirty (30) years of experience in public infrastructure planning, design, construction engineering and inspection, utility coordination, infrastructure development agreements, plan review and approvals, and general supervision of design and construction activities.

As Civil Engineer, with progressive advancement to Engineer of Streets for the City of Detroit, Michigan (1983-1994), my professional experience started as Field Engineer on various construction projects such as Douglas MacArthur (Belle Isle) Bridge reconstruction (1984-1986), Alter Road Seawall reconstruction and various concrete and asphalt road reconstruction projects.

Starting in 1986, roadway design experience ultimately led to supervisory role as Engineer of Street with leadership responsibility for project planning and design of roadways, underground utilities and preparation of construction bid documents funded by MDOT and the City of Detroit.

For almost ten (10) years as the City Engineer for the City of Detroit, Michigan (1994-2004), the responsibility at the leadership level involved providing engineering oversight and funding related guidance for various infrastructure improvements and general contract administration.

Contract Administration responsibilities also include presiding over project dispute meetings with contractors and project management team to resolve issues such as project schedules, quality of work and cost overrun.

Most notable example of such project dispute resolution meetings involve Charles A. Wright Museum of African American History, the Department of Public Works Street Maintenance Administration Building and the administration of the first phase of the \$25 million MDOT direct grant for the General Motors East Riverfront Development roadway construction project.
