October 27, 2009

Marquette, Michigan

Sponsored by

Asset Management – Putting practice on the pavement with treatments, strategies and practices

- **Listen** as other agencies around Michigan explain how transportation asset management works for them.
- **Talk** with your peers who are using transportation asset management to improve the way they manage their roadway assets.
- **Learn** how a transportation asset management approach can support and improve your agency's decision making.

At the Michigan Transportation Asset Management Conference, you'll learn what is happening in Michigan and you'll hear how agencies like yours are applying principles of transportation asset management in practical ways to stretch shrinking maintenance dollars.

For More Information

Brian Sanada, Asset Management Coordinator
517-373-2220 or sanadab@michigan.gov

Terry McNinch, Director of Michigan's LTAP
906-487-2102 or tlmcninc@mtu.edu

Detailed agenda will be distributed in August.
