

CONSTRUCTION CONTRACT PACKAGE

Effective with the January 8, 2010, bid letting, the items mailed to the confirmed low bidder will only include the contract cover letter, the streamlined contracts (contract cover page, contract signature page, bonds, any applicable warranty), designated and specialty item/DBE requirement notice (if applicable), and the insurance requirements. **The contract unit prices and FHWA Form 1273 are also sent and are for you to retain and insert into your executed contract.**

The items listed below are documents and forms that you will need to print for your use. It is the responsibility of the prime contractor to provide all required documents to their subcontractors. Once the contract is awarded, the prime contractor will receive an executed original contract that contains the first two contract pages, the progress schedule, designated and specialty items page (if applicable), bonds, and any warranties.

If you have difficulty accessing any of these documents or have any questions, please contact the Contract Awards Unit at (517) 335-2357 or (517) 335-1926 for assistance. You may also contact the awards staff via email at MDOT-Awards@michigan.gov.
