Payment Schedule for Minor Traf Devices and Flag Control

This construction advisory serves as notification of a change to the payment schedule for Minor Traf Devices and Flag Control.

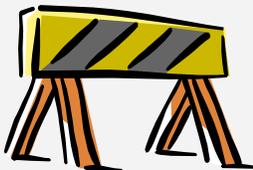

A new payment schedule was developed for Minor Traf Devices and Flag Control after further discussion with industry and concerns with recent bidding history. The frequently used Special Provision for **Payment for Minor Traf Devices and Flag Control**, 03SP812(S), is available on the Supplemental Specifications / Special Provisions (SS/SP) system. This special provision is effective with the March 2010 letting. The revised payment schedule, shown below, will allow a more gradual and equalized payment for this work.

Table 812-1 Partial Payment Schedule for Minor Traf Devices and Flag Control

Percent of Original Contract Amount Earned	Total Percent of Bid Price Paid
First Use	15
25	30
50	55
75	80
90	100

FieldManager will include this new schedule in release 4.5a, which is currently being implemented for the 2010 construction season. FieldManager 4.5a will display this new payment schedule for all contracts, including those let prior to March 2010. Please be aware that the old payment schedule still applies to contracts let prior to March 2010.

Please share this information with consultants and local agencies in your area.
