Solar Board Inspector Checklist – Form 1013S

The purpose of this construction advisory is to notify field staff and project offices that they may use the recently revised Form 1013S, Inspectors Checklist for Solar Boards, when inspecting Lighted Arrow, Type B and C arrow boards on construction projects.

The requirements for Lighted Arrow, Type B and C are described in Section 922.06 in the *2012 Standard Specifications for Construction*.

If the form is utilized, inspectors need to verify all the information listed on Form 1013S and attach the form to the respective IDR.

This form is available on MDOT's website at:

<http://mdotwas1.mdot.state.mi.us/public/webforms/public/1013S.pdf>

Please share this construction advisory with consultants and local agencies within your jurisdiction.
