

Important information about Category F applications

The application period for FY 2016 Transportation Economic Development Category F will be delayed this year. We are updating our IT systems in order to better serve our customer's needs. A new online application will be available April 15, 2014. We anticipate that eligible agencies will be notified of the new application period at that time. Please contact Matt Wiitala at (517) 241-2152 or wiitalam@michigan.gov for additional information. We apologize for any inconvenience.
