

# FieldManager 4.3a to 4.4a-1 Enhancements and Changes

February 26, 2009

## General:

- FieldManager database backup - users now are prompted to write to a CD or other external media. The message for a diskette has been removed.
- The attachment functionality has been improved to help avoid attachment size issues. Most notably, photograph and PDF files no longer increase in size.
- FieldManager has been upgraded to run on Oracle version 10g.
- FieldManager has been upgraded to run on SQL Anywhere 10.
- FieldManager is now certified to run on Windows Vista.
- Many small enhancements have been added to the software and various software errors have been fixed which are not listed in this document. If you would like a complete list of all enhancements and error fixes, you may request a copy of the Summary of Changes document by calling MDOT's FieldManager Help Desk at 517-322-1556 or by sending an email to [fieldmanager-admin@michigan.gov](mailto:fieldmanager-admin@michigan.gov).

## IDRs (Inspector Daily Reports):

- The IDR revision number will now update only upon "Generate".

## Estimates:

- The name of the user who generates the estimate is now displayed. The name appears on the Estimate General Tab and in the header section of the Construction Payment Estimate Report.

## Cont Mods (Contract Modifications):

- The Inc/Dec tab has been updated to retain its contents should the user move the modal window.

## Inquiries:

- The Item History to Date will now accommodate a large amount of text in the Notes area.

## Menu Bar:

- FieldManager can now send and receive regular or contractor read-only copies of contracts by using a new File-Export-Transfer Contracts option.

## CPEs (Contractor Performance Evaluations):

- CPE Evaluation Instructions are now much faster to access.

## FieldBook:

- All enhancements and changes listed above also apply to FieldBook when applicable.
