

Southwest Region Winter Level of Service

Guide for Snow and Ice Control

Priority Level I (ORANGE ROUTE)

Provide maintenance service as appropriate under prevailing weather conditions with a goal of providing a pavement surface over its entire width generally bare of ice and snow. This work may be accomplished using overtime as necessary.

Clearing the pavement bare of ice and snow over its entire width will be a continuous process during and after the snow event using overtime as necessary.

Priority Level II (BLUE ROUTE)

Provide maintenance service as appropriate under prevailing weather conditions with a goal of providing a pavement surface generally bare of ice and snow in the center portion wide enough for one-wheel track in each direction. This work may be accomplished using overtime as necessary during a winter storm event.

Clearing the pavement bare of ice and snow over its entire width will be accomplished as soon as reasonably possible after the winter storm event, without working overtime.
