000 copies printed @ \$0.08 each for a total cost of \$00

What Is Being Done?

M-104 (Cleveland Street) will be reconstructed and widened from Power Drive east to I-96 in Crockery Township, Ottawa County.

This project is being done in coordination with the reconstruction of the I-96/112th Avenue interchange, less than a mile to the east.

When Will This Be Done?

Work will begin in May and is scheduled to continue until October.

How Will Traffic Be Affected?

Traffic will be maintained during construction on M-104 at all times.

For a majority of the work, traffic will be shifted with one lane open in each direction. However, during several stages it will be necessary to allow only one lane of traffic to be open at a time.

Long-term Benefits

This project will extend the pavement life and the addition of the center left-turn lane on M-104 will improve safety and the flow of traffic.

MDOT's 2012 road and bridge program supports the creation of jobs, growth of the economy, preservation of the environment and the safety and security of the transportation system.
