1	M-59 concrete repair. The signs posted indicated that the roadway was down to one lane between Ryan and Van Dyke, the problem was the signage was after the Dequindre Rd exit making taking an alternative route impossible.	6/2/2014 3:31 PM
2	I don't necessarily think it was a good idea to do construction on Vandyke(M53), Mound Rd, Chicago Rd, and 12 Mile all at the the time. I work at the GM Tech Center and I have experienced more than moderate difficulty "leaving" work because of the construction. The traffic exiting the tech center gets quite backed up because of the lane reductions at some most exits.	5/30/2014 11:00 AM
3	Using I-94 as the only detour for I-96 traffic is ridiculous. My commute time has doubly regularly, which is completely unacceptable. I spend countless hours a week stuck in gridlock. The impact that this has had on my car, my gas consumption/spending, my workday, and my life in general is incredible. MDOT should be held directly responsible for the time I miss from work every single week because even leaving forty five minutes to an hour still isn't enough. There was not nearly enough communication, and providing only one viable detour is not only irresponsible, but impractical and inconvenient for an incredible number of people. Not like that matters to you...	5/29/2014 5:38 PM
