

*Questions & Answers pertaining to RFP OR10-022:
Preparation for Implementation of the Mechanistic-Empirical Pavement Design Guide in
Michigan*

Questions/Answers #1: January 19, 2011

All questions below are presented as submitted to MDOT Research

- Q1. Does this project address HMA pavements only, or does it address both HMA pavements and portland cement concrete pavements?
- A: This project addresses all pavements - HMA, Concrete, and Composite - for the calibration and evaluation of rehabilitation fixes portions. The materials testing portion only involves HMA.**
