

Full Construction Engineering Services for the installation of ITS conduit, hand holes and fiber-  
I-696  
Requisition 1340  
QA1  
9/26/2013

Q: In the RFP for JN 107613A (Req #1340), the statement “The consultant will be responsible for the final testing and acceptance of the installed fiber.”, could have multiple interpretations:

- Consultant will witness field fiber testing to verify results  
**A: (QA only).**
- Consultant will provide a certified tester for fiber optic cable and perform tests on fiber  
**A: (actual testing).**

**A: The consultant will be required to witness the field fiber testing. In addition to witnessing the testing the consultant will be a part of the shop drawing review process to identify what the contractor testing, verify that the contractor is completing the correct tests, and analyze the test results.**
