The Michigan Department of Transportation (MDOT) is seeking professional services for the project contained in the attached scope of services.

If your firm is interested in providing services, please indicate your interest by submitting a Proposal, Proposal/Bid Sheet or Bid Sheet as indicated below. The documents must be submitted in accordance with the latest "Consultant/Vendor Selection Guidelines for Service Contracts" and "Guideline for Completing a Low Bid Sheet(s)", if a low bid is involved as part of the selection process. **Referenced Guidelines are available on MDOT's website under Doing Business > Vendor/Consultant Services > Vendor/Consultant Selections.**

RFP SPECIFIC INFORMATION

BUREAU OF HIGHWAYS

BUREAU OF TRANSPORTATION PLANNING **

OTHER

THE SERVICE WAS POSTED ON THE ANTICIPATED QUARTERLY REQUESTS FOR PROPOSALS

NO

YES

DATED _____

THROUGH _____

Prequalified Services – See page ___ of the attached Scope of Services for required Prequalification Classifications.

Non-Prequalified Services - If selected, the vendor must make sure that current financial information, including labor rates, overhead computations, and financial statements, if overhead is not audited, is on file with MDOT's Office of Commission Audits. This information must be on file for the prime vendor and all sub vendors so that the contract will not be delayed. **Form 5100J is required with Proposal for firms not currently prequalified with MDOT**

Qualifications Based Selection – Use Consultant/Vendor Selection Guidelines

For all Qualifications Based Selections, the section team will review the information submitted and will select the firm considered most qualified to perform the services based on the proposals. The selected vendor will be contacted to confirm capacity. Upon confirmation, that firm will be asked to prepare a priced proposal. Negotiations will be conducted with the firm selected.

****For RFP's that originate in Bureau of Transportation Planning only**, a priced proposal must be submitted at the same time as, but separate from, the proposal. Submit directly to the Contract Administrator/Selection Specialist, Bureau of Transportation Planning (see address list, page 2). The priced proposal must be submitted in a sealed envelope, clearly marked "**PRICE PROPOSAL.**" The vendor's name and return address MUST be on the front of the envelope. The priced proposal will only be opened for the highest scoring proposal. Unopened priced proposals will be returned to the unselected vendor(s). Failure to comply with this procedure may result in your priced proposal being opened erroneously by the mail room.

For a cost plus fixed fee contract, the selected vendor must have a cost accounting system to support a cost plus fixed fee contract. This type of system has a job-order cost accounting system for the recording and accumulation of costs incurred under its contracts. Each project is assigned a job number so that costs may be segregated and accumulated in the vendor's job-order accounting system.

Qualifications Review / Low Bid - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions for additional information.

For Qualification Review/Low Bid selections, the selection team will review the proposals submitted and post the date of the bid opening on the MDOT website. The notification will be posted at least two business days prior to the bid opening. Only bids from vendors that meet proposal requirements will be opened. The vendor with the lowest bid will be selected. The selected vendor may be contacted to confirm capacity.

Best Value - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions below for additional information. The bid amount is a component of the total proposal score, not the determining factor of the selection.

Low Bid (no qualifications review required - no proposal required.) See Bid Sheet Instructions below for additional instructions.

BID SHEET INSTRUCTIONS

A bid sheet(s) must be submitted in accordance with the "Guideline for Completing a Low Bid Sheet(s)" (available on MDOT's website). The Bid Sheet(s) is located at the end of the Scope of Services. Submit bid sheet(s) separate from the proposal, to the address indicated below. The bid sheet(s) must be submitted in a sealed manila envelope, clearly marked "**SEALED BID.**" The vendor's name and return address MUST be on the front of the envelope. Failure to comply with this procedure may result in your bid being opened erroneously by the mail room and the bid being rejected from consideration.

GENERAL INFORMATION

Any questions relative to the scope of services must be submitted by e-mail to the MDOT Project Manager. Questions must be received by the Project Manager at least four (4) working days prior to the due date and time specified above. All questions and answers will be placed on the MDOT website as soon as possible after receipt of the questions, and at least three (3) days prior to the RFP due date deadline. The names of vendors submitting questions will not be disclosed.

MDOT is an equal opportunity employer and MDOT DBE firms are encouraged to apply. The participating DBE firm, as currently certified by MDOT's Office of Equal Opportunity, shall be listed in the Proposal

MDOT FORMS REQUIRED AS PART OF PROPOSAL SUBMISSION

5100D – Request for Proposal Cover Sheet

5100J – Consultant Data and Signature Sheet (Required only for firms not currently prequalified with MDOT)

(These forms are not included in the proposal maximum page count.)

Michigan Department of Transportation

**SCOPE OF SERVICE
FOR
CONSTRUCTION SERVICES
As Needed Inspection and Testing**

CONTROL SECTION(S): Various

JOB NUMBER(S): Various

PROJECT LOCATION: Grand Region area including the following counties: Ionia, Kent, Mecosta, Montcalm, Muskegon, Newaygo, Oceana, and Ottawa. Other surrounding counties may also be included depending on the Grand Region HMA program.

DESCRIPTION OF WORK:

The work consists of two (2) primary categories:

- A. Quality Assurance (QA) testing and inspection of the Grand Region's 2012 and 2013 Hot Mix Asphalt (HMA) program as required by the appropriate specifications and the intermittent needs of MDOT.
- B. Perform the duties of the Traveling Mix Inspector (TMI) for the Grand Region for the 2012 and 2013 construction seasons, as characterized further in this Scope of Service.

One Consultant will be selected for this as-needed service. Full time services will not be required on all projects at all times.

The QA part of this scope involves providing all labor, equipment, and materials to perform the required tests and subsequent administration and reporting for Marshall and Superpave Hot Mix Asphalt (HMA) mixes and core samples.

The Consultant will provide a fully functional laboratory and sufficient personnel who have successfully completed the Michigan HMA QC/QA Technician Qualification Program. Substituting personnel is subject to review and approval of the Project Manager.

The Consultant shall also be required to pick up mix and core samples from the various locations within the Region and complete all QA testing and related documentation and reporting of results within the specified time frames in the contract documents. The Consultant may be required to store and distribute HMA sampling equipment for MDOT and consultant inspector's use. The equipment involved generally consists of sampling buckets, shovels, plates and splitters.

The Traveling Mix Inspector (TMI) portion of this contract requires the consultant to provide all labor, equipment and materials to perform the duties of the TMI which include, but are not limited to, writing Job Mix Formulas (JMF's), provide technical expertise to MDOT and

local government field inspectors, certifying HMA labs and plants, reviewing Independent Assurance Tests (IAT's), coordinating and training MDOT personnel on field and lab protocol, certifying HMA samplers, participating in MDOT's TMI quarterly meetings, gathering binder and HMA samples and delivering to the C&T lab, working closely with the TSC Delivery staff to troubleshoot construction problems and make recommendations to correct issues, and administering HMA referee sampling results. The TMI shall at a minimum be certified in HMA design through MDOT's sponsored program, have a valid driver's license, transportation, and communication capabilities.

ANTICIPATED START DATE: March 1, 2012

ANTICIPATED COMPLETION DATE: March 31, 2014

PRIMARY PREQUALIFICATION CLASSIFICATION:

Hot Mix Asphalt (HMA) Plant Inspection and Testing

SECONDARY PREQUALIFICATION CLASSIFICATION:

DBE REQUIREMENT: 0%

MDOT PROJECT MANAGER:

David Phillips, PE
1420 Front NW
Grand Rapids, Michigan 49504
Ph: 616-451-7007
Fax: 616-451-0707
phillipsd@michigan.gov

The Consultant shall contact the Project Manager prior to beginning any work on this Project.

GENERAL INFORMATION:

- A. The Consultant shall furnish all services and labor necessary to conduct and complete the Construction Engineering Services described herein. The Consultant shall also furnish all materials, equipment, supplies, and incidentals necessary to perform the Services (other than those designated in writing to be furnished by the Department), and check and/or test the materials, equipment, supplies, and incidentals as necessary in carrying out this work. The Services shall be performed to the satisfaction of the Department consistent with applicable professional standards.
- B. The Consultant's principal contact with the Department shall be through the designated Project Manager.
- C. The Services described herein are financed with public funds. The Consultant shall comply with all applicable Federal and State laws, rules, and regulations.

- D. The Consultant agrees to demonstrate knowledge of, and performance in compliance with, the standard construction practices of the Department; the Project construction contract, proposal, and plans; the Standard Specifications for Construction and all applicable publications referenced within; the Michigan Construction Manual; the Materials Sampling Guide; the Materials Quality Assurance Procedures Manual; the Density Control Handbook; and any and all other references, guidelines, and procedures manuals needed to carry out the work described herein in an appropriate manner.
- E. The Consultant will notify the MDOT Project Manager, in writing, prior to any personnel changes from those specified in the Consultant's original approved proposal. Any personnel substitutions are subject to the review and approval of the MDOT Project Manager.

CONSULTANT RESPONSIBILITIES:

- A. The Consultant shall perform field operations in accordance with the Department's Personal Protective Equipment (PPE) Policy as stated in the MDOT Guidance Document #10118. A current copy of MDOT's PPE Policy is available on the Bulletin Board System. The Consultant shall perform field operations in accordance with MIOSHA regulations and accepted safety practices.
- B. In order for the work to be properly executed, the consultant will be required to coordinate the work and schedules with MDOT Lansing, Grand Region, and Grand Region Transportation Service Centers (TSC's) personnel, and the HMA paving industry.

It is stressed that due to the potential for conflicts of interest, the consultant will not be allowed to perform the work on projects where they have had a contractual relationship with the contractor or subcontractor on that project.

- C. Payment Schedule and Associated Details

Reimbursement for the work shall be on a monthly basis and shall be broken down into QA testing and TMI work. Furthermore, all reimbursement shall be charged to approved projects with associated job numbers. The consultant will provide the Project Manager with a weekly summary by e-mail, itemized by job numbers, for QA testing and TMI duties for time and mileage charged to MDOT projects. Two and possibly three inspectors will be required on an as-needed basis during the construction season. "As-needed" is dictated by the various contractors' HMA paving schedules on various projects. Partial day, night and weekend work is possible.

- D. The consultant must follow all AASHTO, ASTM, AMRL, FHWA, and MDOT test procedures and regulations including compliance with the four annual requirements stated in Contract Advisory 2009-14 dated October 1, 2009 effective in January 2010. The consultant must attend all meetings as directed by the Project Engineer or Project Manager.

MDOT RESPONSIBILITIES:

- A. The Project Manager shall furnish to the Consultant all Project-specific construction contracts, proposals, plans, plan revisions, written instructions, and other information and/or data as deemed necessary by the Project Manager for the Services required herein. Unless such information is available to be downloaded on the MDOT web site then it is the Consultants responsibility to supply the information. MDOT will provide one gyratory compactor with three molds and calibrating accessories, one heated splitting table, and one ignition furnace with accessory equipment.

CONSULTANT PAYMENT – Actual Cost Plus Fixed Fee:

Compensation for this project shall be on an **actual cost plus fixed fee** basis. This basis of payment typically includes an estimate of labor hours by classification or employee, hourly labor rates, applied overhead, other direct costs, subconsultant costs, and applied fixed fee.

All billings for services must be directed to the Department and follow the current guidelines. The latest copy of the "Professional Engineering Service Reimbursement Guidelines for Bureau of Highways" is available on MDOT's website. This document contains instructions and forms that must be followed and used for billing. Payment may be delayed or decreased if the instructions are not followed.

Payment to the Consultant for services rendered shall not exceed the maximum amount unless an increase is approved in accordance with the contract with the Consultant. Typically, billings must be submitted within 60 days after the completion of services for the current billing. The final billing must be received within 60 days of the completion of services. Refer to your contract for your specific contract terms.

Direct expenses, if applicable, will not be paid in excess of that allowed by the Department for its own employees in accordance with the State of Michigan's Standardized Travel Regulations. Supporting documentation must be submitted with the billing for all eligible expenses on the project in accordance with the Reimbursement Guidelines. The only hours that will be considered allowable charges for this contract are those that are directly attributable to the activities of this project.

The use of overtime hours is not acceptable unless prior written approval is granted by the MDOT Region Engineer/Bureau Director and the MDOT Project Manager. Reimbursement for overtime hours that are allowed will be limited to time spent on this project in excess of forty hours per person per week. Any variations to this rule should be included in the priced proposal submitted by the Consultant and must have prior written approval by the MDOT Region Engineer/Bureau Director and the MDOT Project Manager.

This scope is for “as needed” services, as such, the hours provided are only an estimate. The Consultant will be reimbursed a proportionate share of the fixed fee based on the portion of the authorized total hours in which services have been provided to the Department. Fixed fee on “as needed” projects is computed by taking the percent of actual labor hours billed to labor hours authorized, then applying that percentage to

the total fixed fee authorized. The fixed fee for profit allowed for this project is 11.0% of the cost of direct labor and overhead.

The hours billed for inspectors will not begin until the inspectors report to the project site or to the project office.
