

As Needed Construction Services for Falling Weight Deflectometer (FWD) Testing in  
the Metro Region Requisition #906

QA 1  
4/26/2012

**Q:** For estimating purposes, please clarify the following:

- Do we know how many locations per year we need to perform FWD testing
- It is our understanding that the estimated total of 25 days of testing on freeway and non-freeway in the Metro Region of Michigan are spanned for the two year service contract. Please confirm.

**A:** We will have approximately 25 road sections during two year period (25 days of testing). For estimating purposes please assume 12 road sections during the first year (12 days of testing) and 13 road sections during the second year (13 days of testing).
