

**Traffic Capacity Analysis and Geometric Studies at the US-10/I-75 Interchange QA1
REQ 1130
1/30/2013**

Q: Are the existing bridge and road plans available?

A: All existing structure, ramp, and road plans as they relate to the existing interchange are available. Plans from the original road construction have areas that are illegible. Plans that will be made available:

- **Original 1954 Construction of both the road and bridge**
- **1984 Structure Rehab Plans**
- **2003 Structure Rehab Plans (Railing and surface)**
- **2000 As-let Road Plans (metric) from Salzburg Road to the M-13 Connector**
