

As Needed Bridge Load Rating Services - Standard Structures QA1
Requisition #1300
8.15.13

Q: Currently the RFP is identified as a Tier III proposal. It is noted on page 1 of 27 that 4 contracts at \$800,000 each will be chosen. Would MDOT consider these as Tier II proposals for each consultant? Or since there could be less than 4 chosen, the likelihood of >\$1,000,000 makes it a Tier III. Please clarify.

A: **The Tier is determined by the total selection amount (4 x \$800,000 = \$3,200,000), not by the individual consultant amount.**
