

**Survey and Design Services for M-33 from Long Lake road northerly to M-27, Cheboygan  
County Requisition #1351**

**QA1**

**10/17/2013**

**Q:** If there is any scoping or additional information available for the project, we were wondering if we could stop by and look at it or if it could be made available in electronic form.

**A:** We do have scoping information available for review. This information includes a construction cost estimate, field notes & photos, etc. However, existing plans are not available for the majority of the project limits. Also note that the scoping information may not be entirely representative of the work involved as assumptions may have been made in the original documents and/or changes made to the scope of work that are not reflected in the original scoping documents. If you feel it may be beneficial, this information can be reviewed at the MDOT Gaylord TSC Office located at 1088 M-32 East, Gaylord, MI 49735 between 8am and 4pm. Please call ahead of time to make sure someone will be available to assist you. Ask for Chelsea Kramer or Jay Gailitis. Please also keep in mind, that if any questions arise while reviewing any documents, those questions must be submitted via email to the project manager, no response will be provided verbally.
