

Noise Assessment/Abatement analysis-US23 QA1

4/11/2014

Requisition 1478

Q: For the noise assessment/abatement analysis RFP you have out right now, I understand that per the Consultant/Vendor Selection Guidelines, the Organization Chart, Qualifications of Team, and Location portions of the proposal are required with all Tier II proposals however, we have not seen an RFP checklist where none of the areas of evaluation are checked and I wanted to verify that these were the only three areas that you wanted to have submitted as part of this proposal.

A: Yes, the Organization Chart, Qualifications of Team, and Location portions of the proposal are required for this selection. They are to be included per the Best value Project Scoring Guidelines listed on Page 4 of the Request for Proposal.
