

**As needed Subsurface Utility Engineering – statewide
Requisition 1592
Q & A 1
9/30/2014**

Q1: Will SUE services also be requested on an “emergency” basis and/or during the construction phase?

A1: It is possible.

Q2: Do you anticipate that any Utility Quality Level A services will be requested?

A2: It is possible.

Q3: Are any other SUE services, such as utility condition assessment or design, anticipated to be included under this contract?

A3: It is possible.

Q4: Will the MDOT request the use of any specific geophysical equipment or techniques?

A4: That will depend on the project location, the design fix, and what will be required to achieve the Quality Level requirement.
