

EPE Design Services-Alternate Design Concepts for an Interchange QA2
11/3/2010

Design services on I-94 from east of Sprinkle Road to the I-94BL in the city of Kalamazoo, Cork Street Ct. to Business One Drive on E. Cork Street, and on Sprinkle Road from Cork Street to Vanrick Drive in the city of Kalamazoo.

Question: We are reading through the RFP for this project and wanted to ask a quick question regarding study limits. Under "Project Location" on page 1 of 21, the study limits for I-94 say "from east of Sprinkle Road to the I-94BL". We were wondering if the limits along I-94 should be west of Sprinkle Road (for tying in any new ramp configurations west of Sprinkle Road).

Answer: **The limits should state “west of Sprinkle Road.”**
