

As Needed Value Engineering Studies for various projects statewide REQ 675 QA1
6/23/2011

Q1. On page 2 of 8 of the scope of Services, in the paragraph about team members, last sentence, there is a statement that at least two members of the team should have 10 years of experience in segmental box bridges with Post Tension Concrete Box Beams. This seems to be a carryover from a previous RFP. Is that experience necessary for this current RFP?

A1. The experience in segmental box beams is not necessary for the REQ 675. The rfp has been revised to reflect this.
