

**Design Services for an interchange (SPUI), carpool lot and non-motorized path in the City
of Kalamazoo QA1 Requisition #807
2/10/2012**

Question 1: I See that Requisition 807 was due back on 1/18/2012. Now I see a new one has posted and is due 2/23/2012. I am assuming no proposals were received for Req 807 when it was due back on 1/18/2012 and that is why a new one was issued. Is that why?

Answer 1: We had received several proposals for the RFP which was due on 1/18/12. However, the selection was withdrawn, as we added some tasks and bridge RFP to the project. Same requisition number has been used as the RFP is the same for road portion with addition of bridge design.
