

Small Business Development Pilot Project

M24 Rehabilitation from Harmon Road to north of Clarkston Road QA1

Requisition #949

6/22/2012

Q1. Is there a scoping document available, or any other information that we can review to become better informed about this project? Can this information be made available electronically?

A1. Yes there is a scoping document available for review at the Oakland TSC. No it is not available electronically.

Q2. The proposed project has a secondary prequalification classification of Road Design Surveys. Would you accept the use of Mobile LiDAR as an alternative method of mapping as it is now accepted and widely used under this prequalification category?

A2. Alternative survey methods will be considered under innovations. A work plan will be required for review and approval by MDOT prior to use.
