

MDOT Statewide Passenger and Freight Travel Demand Model
Requisition #2030

Q&A #2 – July 25, 2016

The following items have been added to the MDOT RFP website per request of those attending the pre-proposal webinar on Thursday, July 21:

- A zipped folder of TransCAD geographic files for the current Michigan statewide model network and traffic analysis zones can be found here: <ftp://ftpmdot.state.mi.us> under the name MI Statewide Network and Taz.
- A PDF document including the MDOT model calibration standards referenced in the RFP. Together with the latest model validation and reasonableness checking manual, these are to be used as a guide in developing the calibration standards for the new model.

A recording of the pre-proposal webinar can be viewed here:
