

Phase 2 and 3 Investigations of 2 Prehistoric Archaeological Sites QA1 REQ # 490
12/20/2010

Q. Does one have to be prequalified in order to bid on this project?

A. Prime consultants must be pre-qualified in Prehistoric Archaeology to bid on this RFP. Furthermore, a firm that has not been pre-qualified in Prehistoric Archaeology may not work for a Prime Consultant that is pre-qualified in Prehistoric Archaeology. However, a sub-consultant that provides a specific specialized research service such as ethnobotanical analysis, faunal analysis, geological/geomorphological services, etc. is not required to be pre-qualified in Prehistoric Archaeology. Any consultant who would like to be considered for future RFPs should consult MDOT's website at http://michigan.gov/mdot/0,1607,7-151-9625_21540---,00.html, which includes procedures for the pre-qualification process and related information for Prehistoric Archaeology and Historic Archaeology
