

Further Assessment of Safe, Quick Clearance Strategies – Phase II

OR15-144

Requisition #1861

November 4, 2015

Q: For MDOT Requisition # 1861, OR # OR15-144, the “Further Assessment of Safe, Quick Clearance Strategies” project RFP, there is some confusion regarding exactly which document you want Consultants who submit proposals to use as their “Bid Sheet and Budget Exhibits” information format, to meet the requirement listed in the RFP. After following the link to the Priced Proposal Guidelines provided in original RFP, some clarification is needed:

Is the spreadsheet “Priced Proposal v1015 Template 502537 7.xlsm” the specific form you want used as the Bid Sheet and Budget Exhibit in the Proposal Submittal from Consultants ?

If not, can a Specific MDOT file name and link be provided to ensure the correct form is prepared?

A: The spreadsheet entitled Priced Proposal Template v1015 is to be used as the bid sheet and budget exhibit in the proposal submittal from consultants. The form is located at the following link:
