

*Research Program Assistance and Technology Transfer Management QAI
Requisition #746
12/6/2011*

Q: Page two of the RFP describes Research Spotlights as "one page high level summaries...." However, on the MDOT ORBP website (http://www.mi.gov/mdot/0,1607,7-151-9623_10724_48681---,00.html), the previously published Spotlights are two pages in length. Is it correct that you are requesting one-page Spotlights in the future, or is the intention for them to continue to be two pages?

A: The Research Administration Section's intention is to have Spotlights be one printed sheet with text on the front and back.
