

Grand Region Non-Motorized Plan and Maps QA2

Requisition 1929

3/8/2016

- Q: The RFP indicates that we should plan to contract directly with a printer to print the bike maps. I wanted to confirm that we will be paying the printer directly – and should we just treat it as a reimbursable expense?
- A: Per QA 1, A: The RFP has been revised to state, “Maps are required to be printed and folded per existing examples.” **This will allow for the Prime or a subconsultant to do the work.** If the printing is subcontracted out the Prime will be responsible for paying the subcontractor directly.
- Q: We also wanted to confirm that a Priced Proposal (using the new (December 2015) MDOT forms and process) are not required at this time. They will only be required after the proposal process and with the selected firm.
- A: That is correct on the bid sheet is required with your proposal.
