Transportation makes Michigan’s economy stronger

38 percent of the $544 billion in U.S./Canada annual trade flows through Michigan, the most of any state in the nation.

80 percent of tourists visit Michigan by car, and they spend $18 billion here each year.

Every type of transportation contributes

Aviation contributes about $22 billion to the state’s economy each year.
Passenger rail generates up to $1.5 billion in economic benefits annually.
Bus transit systems contribute $740 million yearly to the economy of their communities.
Bicycling generates nearly $670 million in statewide economic benefits a year.

MDOT’s Five-Year Transportation Program (FY 2018-2022) invests nearly $11 billion in Michigan’s transportation system.

This includes investments in highway, aviation, bus, rail, and marine programs, and over five years supports...

150,500 jobs

$12.5 billion in gross state product

$9.4 billion in personal income

About...

$860 billion in freight moves on Michigan highways, rail lines, and ports each year.

About...
