pg. one of three

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

(1) If boulevard on 11th eliminates entry into 2nd, 3rd streets from S bound 11th → then need to have roundabout on Parkway + Division to allow Slabtown residents to exit from Bay St. to go E on the Parkway. Getting out of Slabtown is difficult onto Division.

(2) Yes - I prefer a roundabout at 14 + Division and at the Parkway and Division. They are safer, slow traffic and are better for pedestrians! Roundabouts everywhere would be great, maybe there are federal $ to purchase homes from individuals on 11th & Div. (if they desire) to make room for roundabouts.

(3) If rear end accidents are predominate accidents at all intersections → then please lower speed limit on Division. There is no reason to have a 40 mph speed limit! The reason MDOT gives - that 40 is what people drive - makes absolutely no sense - please use some education on this one.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

(4) - Do not have R turn on red at Div. + the Parkway → when going E and then turn S on division. This is unsafe for pedestrians, does not leave any traffic breaks for Slabtown residents to exit or to Division from Randaelph.

(5) 11th + Division - having L turn lanes is very dangerous as people drive may to fast going thru that area. A light could negatively impact the central neighborhood as it may invite too much traffic at 11th.

(6) a Boulevard can be good but current display does not offer ~~many~~ a variety of options to enter Central neighborhood, thus putting more weight on 9th & 11th. Boulevard on woodmere has worked well and there are many turn openings.

(7) Reduce speed, Reduce speed, Reduce Speed!

Please place this form in a comment box or see the second page for other options.

MDOT Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

(7) continued- reduce Speed - relocate MPH Signage as the 30 mph sign on E side of division just S of 9th st. is very hard to see.

I have NEVER seen any speed violations enforced on Division. People are crazy driving along Division.

Thank you very much - Good luck to us all -

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

MY BIGGEST CONCERNS IS NOT MAKING ELEVENTH STREET THE "NEW THOROUGHFARE" LIKE 7TH & 8TH STREETS ARE NOW. I HAVE CONCERNS THAT A TRAFFIC LIGHT @ 11TH WOULD PULL MORE & MORE MUNSON EMPLOYEES & COMMONS CUSTOMERS THRU OUR STREET. WE CURRENTLY HAVE A LOT OF MMC EMPLOYEES RACING DOWN 11TH ST. TO GET TO WORK IN THE MORNINGS. I DO NOT WANT OTHER STREETS LOSING ACCESS OFF DIVISION SO ALL WILL COME TO 11TH ST. TO GET TO OTHER STREETS IF A BARRIER IS PUT DOWN THE MIDDLE OF DIVISION.

CONT.

2 & 2

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

PERHAPS A SIMPLE RIGHT TURN ONLY ONTO DIVISION FROM 11TH ST. WOULD ELIMINATE 98% OF ACCIDENTS AT 11TH & DIVISION AS OPPOSED TO A TRAFFIC LIGHT & BUILD A OVERHEAD WALKWAY TO CONNECT 11TH & THE COMMONS FOR SAFETY OF PEDESTRIANS. WE WOULD LIKE TO REDUCE TRAFFIC & SPEEDERS ON 11TH ST. & KEEP OUR STREET SAFE FOR CHILDREN & FAMILIES.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

I want more bikes! I want more walkers, anything that you use with your feet! !!!!!!!!!!! I want NO CARS Alowd!!!!!!!!!

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

Move the highway out of the residential areas - Anything else is just silly.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

> We don't see any of the three options as good options.
> Division parallels our Residential neighborhood
> The "no left turn" option is the only option that would keep our neighborhood slow.
> The traffic is already so heavy on Division St.
> We are fearful against a traffic light on M-37 and a roundabout isn't much better.
> We currently have a 15 small children living in the 300 block of Division St. If you are concerned about the dangers of the Division corridor, the dangers of our Clarion Division corridor home to M-37 becomes as Horrible as it is.

Please place this form in a comment box or see the second page for other options.

> We strongly oppose a traffic light or roundabout unless you block traffic from Division St. at each.
> Try the "NO LEFT TURNS" option first.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

- Please, No Roundabouts, They are confusing.
- Put a traffic light [illegible]
- A shoulder would be but consider a center turn lane if possible to widen the street

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

- I would like to see more pedestrian crossings, both mid-block crossings and crossings that don't stop traffic but notify motorists that pedestrians are present.

- I don't think additional lanes need to be added, even if a boulevard is installed. Traffic heading north to Ottawa/Lawrence should be directed to use Franke Rd/Silver Drive.

- I would like to see bus stop bump outs for BATA's Interlochen Village loop route that runs along Division.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

Solve the Hospital entrance problem first 600+ employees on 2 sites from the region

Entry Colonial through parking @ about 3rd/4th aisle & allow ground clearance for pharmacy, check-ins. Hospital to avoid more # of trips, not parallel - two roads, connect to Rennie Post on to west & east end.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

As an 11th ST resident I object to current plans that make 11th ST a main east-west thorofare. Closing all streets except 14th, 11th, 7th & Front to left turns directs all traffic to 11th St. A grid street system is designed to distribute traffic evenly throughout the neighborhood, this makes 11th a main street. More should be done to protect the character of the neighborhood. No left turns should be allowed at 11th & Division, the boulevards prevent left turns except at 11th

Please place this form in a comment box or see the second page for other options.

MDOT

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

The designs presenting today still seem to be about moving automobiles at high speeds over the community concerns about access & safety for people on foot & bike. I was hopeful to see a re-invisioned Division St. Instead the proposed designs are designed to forgive bad behavior associated w/ driving cars: high speeds, charging lanes, and high speed turns. I do like roundabouts but not when they are built out of scale to the context of urban living.

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

1) There must be several pedestrian overpasses along Division; at 11th, 4th and Front streets.

2) US 31 should be re routed around the city & NOT go through it.

3) Handicapped crossings are needed on Division as well.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

Any option that increases the flow of traffic down 11th St. is not a desirable option. We are a neighborhood - we are not blocks of businesses like 8th St. I see that 11th St is now eligible to be designated as a historical neighborhood. Come up with a better plan than splintering the neighborhood.

The gentleman at the east proposing 11th St options was insulting. When a neighbor states that you are throwing the residents of 11th St under the bus - he threw back, "But isn't saving lives more important?"

Get a new plan that does not destroy our neighborhood! Stop taking the "easy" way out and please start listening to the tax paying residents.

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

Thank you for having this event. My concern has always been the safety of young children crossing the street. Traffic is too much and speeds of 35+ are reached and I have seen many near misses with kids, speeds and not the amount so I am concerned with increasing traffic volume significantly. I think a good compromise is options 1&2 have a light but do not allow for traffic to flow the same way as it does now. Lights are easy and people are familiar with them. Comments but not a complete list. The light on Division and parkway roundabout I would like to see a way to stop traffic for pedestrians crossing and not just cars. People ignore signs and lights and roundabouts are not safe enough.

Please place this form in a comment box or see the second page for other options.

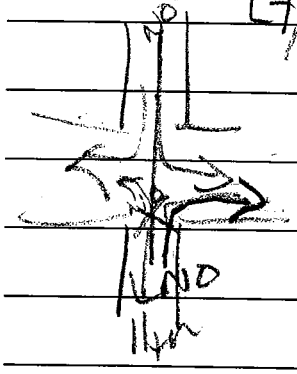
MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

Light at 14th for pedestrian crossing probably a good idea. Need to not allow west traveling Traffic on 14th to go left onto Division. Also No entrance for East bound Traffic ~~onto~~ onto 14th. - into the C. Neighborhood L/R turn into Division only no straight



Would love to be involved

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

I HAVE BEEN VERY INVOLVED AS A CONCERNED CITIZEN IN THE ACME/VGT/MEIJERS PROJECT WHICH HAS 3 ROUND ABOUTS.

I AGREE WITH THE PREFERRED ALTERNATIVES 1 ROUND ABOUTS @ 14th & GRANDVIEW & BLVDS WITH LIGHTS @ 7th & 11th.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

For all alternatives, I think consideration should be given to the maintenance of each alternative. For example, while a roundabout would appear to require good drainage & excellent shoveling this is always visible from the road & the responsibility for maintenance should be clear. A roundabout would not require much maintenance.

I would tend to rank more favorably an alternative that keeps traffic lights & roundabouts.

Thank you for having this avenue. It was very informative.

Please place this form in a comment box or see the second page for other options.

MDOT
Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

(1) The signal (with left turn arrows part of the lighted signal) at Eleventh is the preferred action. The proposed roundabout at Eleventh would take too much of the historic parkland.

(2) Same concern about the 14th Street roundabout. The design shown increases the size of the intersecting streets, the 2-lane circle eats into the natural area, the pedestrian accomodation is confusing & likely to be ignored without "pedestrian in crosswalk" warning lights. (Can be self-actuated)

(3) Serving the street as currently one-way is fine, but need better pedestrian/biker crossing.

(4) The "boulevard barriers" on Division are not helpful to dispersing traffic along numerous paths. Instead, they will funnel cars along available streets (where left turns are available.

Please place this form in a comment box or see the second page for other options.

Michigan Department of Transportation

US 31/M-37 (Division St.) PEL

Public Input Session 3

What do you think about the design alternatives presented at today's open house?

I am in favor of any measures that will allow for safer pedestrian crossing of Division, especially @ 11th St. If a light is installed there, I would encourage turn restrictions to minimize through traffic on 11th St through central Neighborhood. The proposed medians on Division would limit access to central Neighborhood + make it slightly easier to cross as a pedestrian which seems an acceptable trade-off for making it slightly harder to get home.

What do you think about the design alternatives presented at today's open house?

ROUND ABOUT 14TH IS GREAT. ADDED BOULEVARD IS NICE. FRONT + OLIVE IS A "NO-WINNER". CONSECRATION WITH CITY ON ERADICATION OF ONE-WAY STREETS - WITH CAVEATS - AT SEVENTH - EAST BOUND PENETRATION OF CENTRAL NEIGHBORHOOD NEEDS TO CONTINUE, OR SEVENTH STREET IS DOOMED. 7TH + UNION COULD NOT HANDLE THE TRAFFIC. SIMILARLY, THE WEST-BOUND BARRICADE AT 8TH + UNION NEEDS TO STAY - ALLOWING FREE, TWO WAY CIRCULATION ON 7TH + 8TH EVERYWHERE ELSE.

ROUND ABOUT DESIGN @ PARKWAY IS WELL THOUGHT OUT, BUT RESISTANCE WILL BE HIGH.

ELEVENTH STREET ROUNDABOUT IS ATTRACTIVE!

ADD BOULEVARDS + TREES - TRAVERSE CITY SHOULD NOT BE THE HIGH-SPEED CONDUIT FOR THE AUTOMOBILE.

REDUCE SPEED, CALM THE STREETS, REDUCE THE NOISE. THIS IS NOT SAGINAW!

What do you think about the design alternatives presented at today's open house?

1. Roundabouts are clearly effective at 14th St. & Grandview Hwy.
2. Roundabouts could be effective if located farther west into park to maintain residences on east side.
3. Signals probably inevitable @ 17th and at Post.
4. What happens @ Randolph?

Bicycle & Pedestrian Safety crossing at all Division St's location is a higher priority than motor traffic volume and speed.
