

Rail Freight Fund – Report for Fiscal Year 2009

This report on the Rail Freight Fund (RFF) is required by Section 15a (4) of Public Act 747 of 2002 which amended Public Act 295 of 1976. The Department's authority to deposit funds in the Rail Freight Fund and to provide financial assistance for facilities of rail freight and marine freight transportation are specified in Section 17 of this Public Act.

The amount of the fund at the beginning of FY 2009 was \$219,815.62. Revenues totaling \$452,253.70 increased the fund to \$672,069.32. There are outstanding encumbrances totaling \$5,740.74 reducing the fund to \$666,328.58 at fiscal year end 2009.

The encumbrances will pay part of the cost of heating units for the state-owned engine house in Cadillac.

No Freight Economic Development Program (FEDP) projects were funded from the RFF in FY 2009. Please note that FEDP projects that received funding from the RFF and are still under contractual obligation to meet certain car loading requirements, are listed on the attached chart entitled, "Status of Freight Economic Development Loans/Grants – Funded from the Rail Freight Fund".

Rail Infrastructure Loan Program - Report for Fiscal Year 2009

This report on the rail infrastructure loan program is required under Section 15a (4) of Public Act 295 of 1976.

Originally established under Section 710 of Public Act 341 of 1996 to help finance capital improvements on Michigan's freight railroad infrastructure, the rail infrastructure loan program, also known as the Michigan Rail Loan Assistance Program (MiRLAP), was placed in statute through the enactment of Public Act 747 of 2002 which amended 1976 P.A. 295 by adding Section 15a. The loan program helps preserve and improve freight railroad infrastructure by making interest free loans to local governments, economic development corporations, railroads, and current or potential users of freight railroad services for qualifying projects. Money received as repayment for loans made under this program, together with interest earned and any penalties assessed and received for failure to repay loans on time are credited to the fund to be allocated for the purposes of the program. Therefore, the fund is structured as a "revolving" loan fund so that loans can continue to be made for rail infrastructure improvements in perpetuity.

Rail Infrastructure Loan Fund

At the beginning of fiscal year (FY) 2009, the amount of the Rail Infrastructure Loan Fund was \$13,481,921.48. The appropriation of \$300,000.00 and interest earnings of \$72,776.60 increased the fund to \$13,854,698.08. A loan for \$406,602.50 was written off due to bankruptcy reducing the fund at fiscal year end to \$13,448,095.58.

Loans Outstanding

At the beginning of FY 2009, outstanding loans amounted to \$5,633,793.70. Loan repayments of \$1,272,277.22 and a write off of a loan due to bankruptcy of \$406,602.50 reduced the amount of outstanding loans to \$3,954,913.98. New loans of \$2,147,966.00 made in FY 2009 increased the amount of loans outstanding at year end to \$6,102,879.98.

Amount Available for New Loans

At fiscal year end 2009, the Rail Infrastructure Loan Fund had a balance of \$13,448,095.58. The fund has outstanding loans of \$6,102,879.98 leaving \$7,345,215.60 available for new loans. There is an additional \$1,704,388.21 that is obligated, but not yet disbursed, leaving an unobligated balance of \$5,640,827.39.

Information on all loan contracts funded under the loan program since its inception, are listed on the attached chart entitled "Status of Rail Infrastructure Loan Agreements". All loans remain in good standing.
