The Honorable Lee Gonzales, Chair  
House Appropriations Subcommittee  
on Transportation  
P.O. Box 30014  
Lansing, Michigan 48909

Dear Senator Hardiman and Representative Gonzales:

We are pleased to present you with a summary of Michigan's FY 2010 federal funds and the proposed distribution to state and local programs. The Federal Highway Administration released obligation authority for the FY 2010 Transportation Program. Therefore, we are submitting this letter and enclosures to you in compliance with Section 401 of Public Act 116 of 2009. Section 401 requires the Michigan Department of Transportation to notify local agency representatives, the Senate and House Appropriations Subcommittees on Transportation, Senate and House Fiscal Agencies, and the State Budget Director regarding the federal amounts, categories authorized, and the department's recommendation for distribution of these funds.

As in the past, we have sought input from the Michigan Municipal League and the County Road Association of Michigan to develop the distribution of the local share of funds. Local agencies have already been notified of their approximate level of funding and were encouraged to continue their programs without delay.

Michigan's FY 2010 apportionments from the Federal-Aid Highway Program total \$1.1 billion. Details of federal funding and our recommended distribution for FY 2010 are shown in the enclosed table.

Thank you for this opportunity to share our recommended distribution of FY 2010 Michigan federal-aid to highways. We are looking forward to working closely with our federal and local partners to provide the citizens of Michigan with another successful highway program. If you have any questions regarding the FY 2010 program, please call either me or Susan P. Mortel, Director, Bureau of Transportation Planning, at (517) 373-0343.

Sincerely,

Kirk T. Steudle  
Director

<b>Total<sup>(2)</sup></b>	<b>\$1,056,502,109</b>	<b>\$988,970,745</b>

(1) Except for high priority projects and some minimum guarantee funds, the obligation limit applies to the total, not to individual federal-aid categories. The assignment of obligation authority by associated apportionment is made primarily to determine the total to be made available to MDOT and local programs.

(2) The total does not include mid-year allocations and apportionments.

**Summary of FY 2010 MDOT Federal-Aid Apportionments and Obligation Authority by

<b>Total<sup>(3)</sup></b>	<b>\$788,673,823</b>	<b>\$737,047,548</b>

(1) Except for federal earmarks and some minimum guarantee funds, the obligation limit applies to the MDOT program as a whole, not individual federal-aid categories. The assignment of obligation authority by associated apportionment is made primarily to determine the total to be made available to MDOT and local programs. MDOT obligation authority is not exactly 75 percent of the total because some programs are independent of the mandatory 75/25 calculation. The actual percentage will vary from year to year.

(2) This amount is initially estimated at 50 percent of apportionments.

(3) The total does not include mid-year allocations and apportionments, which are outside the 75/25 calculation. In addition, the total does not reflect local agency federal-aid-buyout agreements.

**Summary of FY 2010 Local Federal-Aid Apportionment and Obligation Authority by Program**

<b>Total<sup>(4)</sup></b>	<b>\$267,828,286</b>	<b>\$252,948,321</b>

(1) These amounts are based on a proportional share of the applicable obligation ceilings. Except for federal earmarks and the TEDF programs, the obligation limit applies to the local programs as a group, not individually. Local agencies are encouraged to base their programs on apportionments and submit projects early in the fiscal year to ensure that obligation authority is still available. The assignment of obligation authority by associated apportionment is made primarily to determine the total to be made available to MDOT and local programs. Local obligation authority is not exactly 25 percent of the total because some programs are independent of the mandatory 75/25 calculation. The actual percentage will vary from year to year.

(2) SPA is the State Park Access Program, which receives \$500,000 annually. LTAP is the Local Technical Assistance Program.

(3) This amount is initially estimated at 50 percent of apportionments.

(4) The total does not include mid-year allocations and apportionments, which are outside the 75/25 calculation. In addition, the total does not reflect local agency federal-aid-buyout agreements.
