

Funding to Support the Future

Sarah Hubbard and Melissa Roy
Detroit Regional Chamber

Why Is This Important to Michigan?

- Competitiveness
- Workforce supply
- Tourism
- Movement of goods
- Seamless supply chain
- Industry support

Making a Federal Case

- System investment to improve infrastructure assets
- Goods moving states
- Global trading states and regions
- Evolution of great lakes states

What Drives Government Funding?

Growth

Mobility Demands

New Technology

Today's Infrastructure Drivers

- Change in movement needs
- More intermodal needs for goods and people
- Increase in transportation technology
- Advancing the transportation industry
- Changes in land use - customizing to communities and linking into the larger system

Shoring up Current Funds

- What do we spend right now?
- How can we make better use of funds?
- Update the funding streams to protect assets

Future Funding

- Funding mechanism for intermodal development
- Funding stream from multi-modal users
- Connecting static economic development of production with the economic development of trade movement and the marketplace

Improvements

- Technology
- Keep projects out of the political process
- Public private partnerships
 - Toll Roads
 - Transit
 - Congestion pricing
