What Is Being Done?

The Michigan Department of Transportation (MDOT) will be rebuilding I-94 Business Loop (BL) (Stadium Drive) from 11th Street to east of Seneca Lane, including the US-131/Stadium Drive bridge and interchange.

When Will This Be Done?

The majority of reconstruction of I-94 BL/Stadium Drive from Drake Road to east of Seneca Avenue will take place from April to Labor Day 2014. Also in 2014, US-131 will have roadway and ramp work to accommodate the bridge replacement work in 2015.

The US-131/Stadium Drive bridge and interchange reconstruction will occur from March to September 2015.

How Will Traffic Be Affected?

In 2014, one lane of Stadium Drive will be open in each direction, and a left-turn lane will be open from Drake Road to Seneca Avenue. US-131 will have nighttime lane closures. The long ramps will be closed and detoured for up to three weeks.

In 2015, one lane of Stadium Drive will be open in each direction from 11th Street to Drake Road. US-131 will have nighttime lane closures. The loop ramps will be closed and detoured for the 2015 construction season.

Long-term Benefits

The new I-94 BL/Stadium Drive interchange with US-131 and intersection at Drake Road will improve safety and traffic flow, as well as relieve congestion.

MDOT reminds motorists to drive like you want to make it home tonight.
