

Goals	Action Steps	Milestone Date	Deliverable / Outcome
1 Strengthen "Pre-booking" Jail Diversion for Individuals with Mental Illness	a. Implement statewide Crisis Intervention Team (CIT) program and other best practice models (PILOT)		Statute/solution/CIT teams
	1) Complete draft statute and/or other strategies for implementation	2/1/2015	
	2) Solicit and find legislative sponsor and/or propose solution to appropriate body	4/1/2015	
	b. Clarify statutory/contractual Jail Diversion relationship between law enforcement agencies and CMHs (Statewide)	1/1/2015	Statute/or other Mechanism
	c. Collect baseline performance indicators for diversion and implement ongoing process for evaluation (performance dashboard) (Statewide)	1) Implement process	Data Collection Process, Standard incident report
2 Ensure Quality, Effective, and Comprehensive Behavioral Health Treatment in Jails and Prisons	a. Improve behavioral health treatment provision (Statewide)		Jail Diversion Standards, Statute (if applicable), other Recommended Deliverable
	1) Work with DCH / CMH's on identifying alternative funding sources	11/1/2014	
	2) Reduce variance of behavioral health services including case management and medications (implement standard benefit). Ensure medications on transfer to jail or prison.	12/31/2014	
	a) Review continuity, including the issue of medication formularies, and make recommendations regarding improved coordination of care	12/31/2014	
	b) Propose solution to DCH regarding jail diversion guidelines specific to most contracts	12/31/2014	
	3) Establish process for transfer of prisoner/inmate medical & mental health records from institution to institution, standardized consent form implementation	1/31/2015	Statute/or other Mechanism, Standard Patient Release form, Guidelines
	a) Amend judgment of sentence form to allow order of release mental health records to jail or MDOC (SCAO)	1/31/2015	
b) Develop procedure for confidential emailing of protected health information	Revised		

Goals	Action Steps	Milestone Date	Deliverable / Outcome
2 Ensure Quality, Effective, and Comprehensive Behavioral Health Treatment in Jails and Prisons	c) Develop authorized patient release for transfer of mental health records	Revised	
	d) share information based on K-Zoo pilot and forms committee	Revised	
	b. Develop an ongoing performance monitoring process to include baseline and outcome data (fiscal, clinical, and societal) (PILOT)		Surveys, Executive Summaries, Gap Identification
3 Expand "Post-Booking" Jail Diversion Options for individuals with Mental Illness	a. Develop uniform standards for post-booking diversions (include process for probation/parole violators) (PILOT)	Postpone until funds allow	Uniform Standards and/or Statute
	1) Complete draft statute or other suggested change.	Postpone until funds allow	
	2) Solicit and find legislative sponsor and/or propose solution to appropriate body	Postpone until funds allow	
	b. Expand the availability of and resources for (state and other) Mental Health Court for individuals with a mental illness (PILOT)		Statute/or other Mechanism, Assessment, Michigan implementation guideline
	1) Devise Michigan-specific Mental Health Court implementation guideline	12/31/2015	
	2) Conduct process for ongoing assessment and/or review existing evaluations of Mental Health Courts (and similar models)	12/31/2015	
	3) Identify potential resources for sustaining existing Mental Health Courts and for creating additional Mental Health Courts.	1/31/2015	
	c. Integrate necessary mental health services into probation consistently throughout Michigan. Explore/enhance availability of mental health services for Drug Court participants who have a mental illness. (Future Pilot)	9/1/2014	Post-booking Diversion Standards, Statute, Best Practices
	1) Research best practices. Identify feasible models for Michigan (urban/rural)	1/31/2015	
	2) Develop and make available identified best practices to courts.	10/31/2015	

Goals	Action Steps	Milestone Date	Deliverable / Outcome
4 Reduce Unnecessary Incarceration or Re-incarceration of Individuals with Mental Illness	a. Strengthen involuntary mental health treatment process in Probate Courts (PILOT)		Potential Statute or other solution
	1) Assess effectiveness of Assisted Outpatient Treatment (Kevin's Law)	Surveys being sent to all Probate Judges and CMH's statewide	
	a) Survey Probate Courts and CMHSPs regarding perceived strengths and limitations of the AOT law	11/1/2014	
	b) Convene stakeholders to analyze results and draft statute if needed	2/1/2015	
	2) Develop and provide training on criteria for a "Person Requiring Treatment" (includes "potential harm")	4/30/2015	
	a) Complete training outline	3/1/2015	
	b) Conduct training	4/30/2015	
	c) Determine whether statutory change is required. Proceed accordingly.	9/1/2014	
	b. Improve behavioral health treatment upon re-entry into the community (PILOT)		Guidelines, Proposal, Data Evaluation Methodology
	1) Identify and pilot best practice models for re-entry from incarceration to the community	10/31/2015	
	EITHER: a) Identify and implement re-entry models – Jail	Implement: 10/31/15 Evaluate: 12/31/16	
	OR: b) Identify best practices and track outcomes – Prison		
2) Require jails to inform jail-based behavioral health providers of inmate release at the time or before release		Guidelines, Proposal, Data evaluation methodology	
a) Implement	10/31/2015		
b) Evaluate	12/31/2016		

Goals	Action Steps	Milestone Date	Deliverable / Outcome
4 Reduce Unnecessary Incarceration or Re-incarceration of Individuals with Mental Illness	3) Ensure release of correctional mental health records post- incarceration through pilot above	10/31/2015	
	4) Evaluate current process and develop a consistent ongoing performance monitoring process through pilot above		
	a) Evaluate D47 DOC data and current process	12/31/2016	
	b) Eliminate gaps, increase consistency	12/31/2016	
	5) Develop an ongoing mechanism for evaluating jail and prison re-entry data using learning from pilot	7/31/2017	
	c. Propose dedicated State General Fund "Diversion" appropriation for behavioral health services for FY 2016 or FY 2017		Draft Statute or other proposed solutions
	1) Complete analysis, finalize recommendation and/or draft legislation	12/31/2014	
	2) Present recommendation to executive branch, legislative leaders, potential sponsors	2/28/2015	
	d. Maximize benefit eligibility for incarcerated individuals leaving prison or jail, thereby strengthening linkages to community services		Draft statute or other proposed solutions (e.g. Medicaid State Plan or Provider Manual Amendment) consistent process
	1) Develop consistent process to ensure maximum Medicaid eligibility and accessibility for behavioral health issues	10/1/2014	
	2) Eliminate Medicaid termination while incarcerated in jail or prison	10/1/2014	
	3) Seek consultative services at DHS to ensure prisoner has access to Medicaid upon release	10/1/2014	

Goals	Action Steps	Milestone Date	Deliverable / Outcome
Establish an Ongoing Mechanism to Coordinate and Assist with 5 Implementation of Action Plan Goals and to Facilitate Needed Systems Change	a. Ensure adequate behavioral health treatment capacity to support this Action Plan		ROI document, Identification of needs, resources, and funding
	1) After every pilot cycle, use learning from that pilot to evaluate capacity to implement best practices	12/31/2015 Annually Thereafter	
	Identify financial challenges and a) opportunities for maintaining and expanding Diversion efforts.	12/31/2015	
	Increase awareness of financial costs vs. long-term 2) savings for community-based behavioral health services as an alternative to incarceration	Ongoing Annually	
	Identify potential sources of revenue and a) practical administrative and clinical efficiencies	3/31/2015	
	b) Complete Return on investment document with initial cost-benefit analysis	Annually
