

Tips for Cleaning Kitchens

The following kitchen surfaces should be cleaned and disinfected weekly :

- ♦ tables and countertops
- ♦ microwave, inside and outside, including handles
- ♦ stove and oven, handles and knobs
- ♦ refrigerator and freezer, the front and door handles
- ♦ cabinets and drawer fronts
- ♦ coffee maker, pots and handles
- ♦ serving carts and serving tables
- ♦ trash cans, outside and handles
- ♦ kitchen floors

For cleaning and disinfecting use a standard kitchen or household disinfectant according to manufacturer's directions

Surfaces must be cleaned with soap and warm water prior to disinfecting.
