

## DTMB - Procurement Upcoming Bid List

The Business Development Unit (part of the Department of Technology, Management & Budget-Procurement) is pleased to announce the availability of the Upcoming Bid List. This list contains bid opportunities projected to be put out for bid during approximately the next twelve months. Please note that bids from individual State agencies, DTMB's Design and Construction Division, and Michigan's community colleges **are not usually included in this list**. Please note that some state agencies now have authority to bid out their own contracts as high as \$250,000. Check Buy4Michigan for those contract opportunities.

The Upcoming Bid List provides vendors the ability to research upcoming opportunities that fit their business model and prepare themselves to bid. On average, bids can go out 1 - 6 months before the expiration date, depending on complexity. Through the "View Contract" link on the list, vendors will be able to examine the current contract online, including specifications, pricing, contract amount,\* and buyer contact information for questions. Please note that **the actual solicitations will be posted on Buy4Michigan.com**. Interested vendors must register their companies on the site to view and respond to solicitations.

Please click on the "Upcoming Bid List 2/12/2014" bookmark to the left to view projected upcoming bids.

**Please note**, inclusion on this list is not a guarantee that these items will be put out to bid, and also does not include new or unanticipated needs. We strongly encourage vendors to check [www.Buy4Michigan.com](http://www.Buy4Michigan.com) on a regular basis to find new contract opportunities.

\*Contract amount is an estimate of the spend at the time the contract was awarded plus any additional dollars added; actual dollars spent may be lower.
