IMPORTANT CHANGES DURING THE YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none", "not acceptable" or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefor and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements etc.
- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly and materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on page 106, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. (Reserved.)
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by instruction 1 to 11 above, such notes may be attached to this page.

LONG-TERM DEBT (Accounts 221, 222, 223 and 224)

- Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt.
 In column (a), for new issues, give Commission authorization numbers and dates.
- 3. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
- 4. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
- 5. For receivers' certificates, show in column (a) the name of the court and date of court order under which such certificates were issued.
- 6. In column (b) show the principal amount of bonds or other long-term debt originally issued.
- 7. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
- 8. For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
- 9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Accounts 221, 222, 223 and 224) (Continued)

- 10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.
- 11. Explain any debits and credits other than amortization debited to Account 428, Amortization of Debt-Discount and Expense, or credited to Account 429, *Amortization of Premium on Debt-Credit*.
- 12. In a footnote, give explanatory particulars (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principal repaid during year. Give Commission authorization numbers and dates.
- 13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote including name of pledgee and purpose of the pledge.
- 14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
- 15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, Interest on Long-Term Debt, and Account 430, Interest on Debt to Associated Companies.
- 16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. Statenames of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

Independent Auditor's Report

The Board of Directors Tri-County Electric Cooperative, Inc. Portland, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of Tri-County Electric Cooperative, Inc., which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of operations, members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

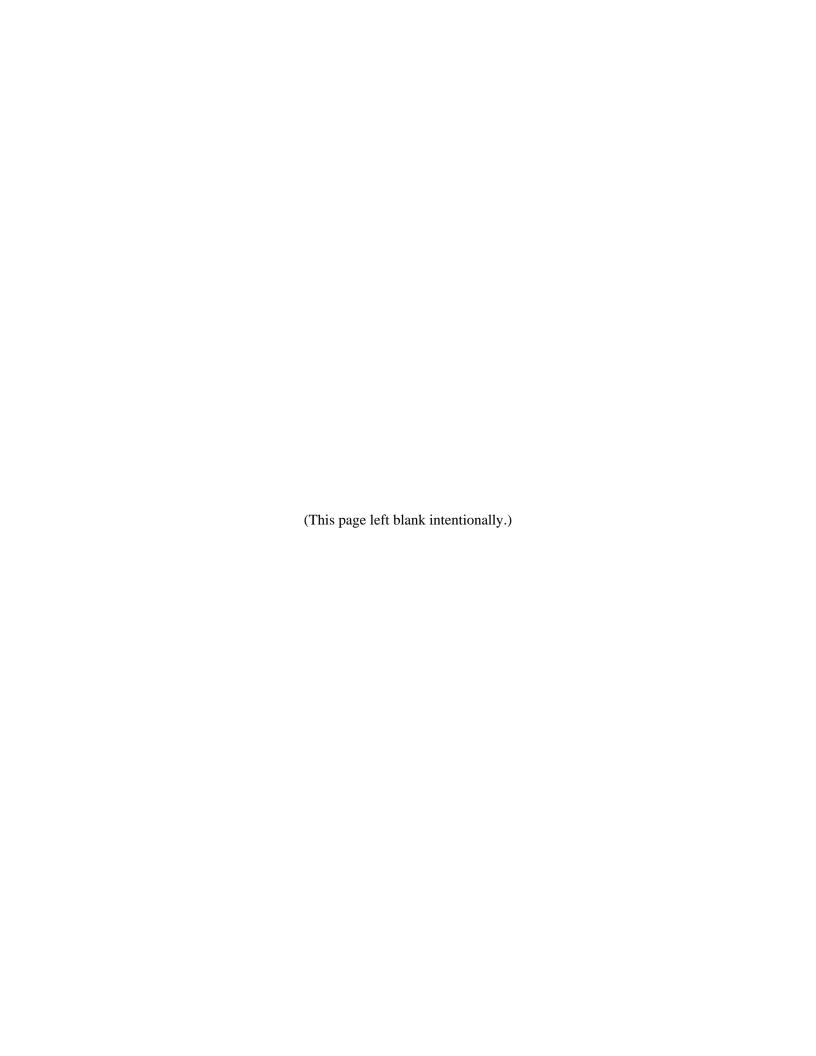

As more fully described in Note 6 to the financial statements, the Cooperative reports its investment in Tri-Co Services, Inc., a wholly owned subsidiary, on the equity method of accounting. In our opinion, accounting principles generally accepted in the United States of America require that all majority-owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of Tri-Co Services, Inc. had been consolidated with those of Tri-County Electric Cooperative, Inc., total assets and total liabilities and equities would be increased by \$1,452,504 and \$106,879 as of December 31, 2015 and 2014, and revenues and expenses would be increased by \$4,110,855 and \$5,275,135 for the years then ended.

Qualified Opinion

In our opinion, except for the effects of not consolidating Tri-Co Services, Inc., as discussed in the above paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Electric Cooperative, Inc. as of December 31, 2015 and 2014, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Summary of Significant Accounting Policies

Principal Business Activity

Tri-County Electric Cooperative, Inc. dba HomeWorks (the Cooperative), a Michigan corporation, provides for the electric energy needs of its members, the rural residents of the central Michigan area.

Consolidation Policy and Preparation of Financial Statements

The financial statements of the Cooperative have been prepared on the accrual basis of accounting. The Cooperative reports its investment in its wholly owned subsidiary, Tri-Co Services, Inc., using the equity method. Accounting principles generally accepted in the United States of America require wholly owned subsidiaries to be consolidated. In arriving at the decision not to consolidate its subsidiary, management concluded that since the primary users of the statements are the Board of Directors, management and members, consolidation of the subsidiary's statements would tend to obscure the financial position and activities of the Cooperative.

Regulation

As of April 6, 2010, the Cooperative is self-regulated for rates, billing practices, and accounting standards. All other aspects of electric service continue to be regulated by the Michigan Public Service Commission. The Cooperative's accounting policies and the accompanying financial statements, except as noted above, conform to generally accepted accounting principles applicable to rate-regulated enterprises and reflect the effects of the ratemaking process.

As a result of the ratemaking process, the Cooperative applies Accounting Standards Codification (ASC) 980, *Regulated Operations*. The application of generally accepted accounting principles by the Cooperative differs in certain respects from the application by non-regulated businesses as a result of applying ASC 980. Such differences generally relate to the time at which certain items enter into the determination of net margins in order to follow the principle of matching costs and revenues.

Electric Plant and Retirements

Electric plant is stated at cost less contributions in aid of construction. The cost of additions to electric plant includes contracted work, direct labor and materials and allocable overheads. When units of property that are specifically identifiable are retired, sold or otherwise disposed of in the ordinary course of business, their book cost less net salvage is recognized as a gain or loss. All other units of property that are retired, sold or otherwise disposed of in the ordinary course of business, their average book cost less net salvage is charged to accumulated depreciation. Repairs and the replacement and renewal of items determined to be less than units of property are charged to maintenance expense.

Depreciation

Depreciation is computed using the straight-line method based upon the estimated useful lives of the various classes of property.

December 31, 2015 and 2014

Cash and Cash Equivalents

Short-term highly liquid investments that are readily converted to known amounts of cash and present insignificant risks of changes in value are considered cash equivalents. Investments in commercial paper are considered cash equivalents and valued at cost which approximates market.

Investments

Investments in other cooperatives and associated organizations are recorded at initial cost including allocated equities. Other investments representing less than a 20% ownership interest are recorded at cost. The Cooperative's investment in its wholly owned subsidiary, Tri-Co Services, Inc., is recorded using the equity method. Under this method, the investment is adjusted for the subsidiary's underlying earnings and losses.

Receivables and Credit Policies

Trade receivables are uncollateralized customer obligations due under normal trade terms requiring payment within 21 days from the billing date. Unpaid trade receivables with dates over 30 days old are assessed a late fee of 2% (residential) or 5% (large power and general service) of the unpaid balance or the amount of the bill less tax, whichever is less. Non-interest bearing notes receivable are stated at principal balance and are collateralized by equipment.

Payments on trade and notes receivables are allocated to the earliest unpaid billings. The carrying amounts of trade receivables are reduced by a valuation allowance that reflects management's best estimate of the amount that will not be collected. Management reviews all trade receivable balances periodically and adjusts the allowance accounts based on current economic conditions and past experience.

Materials and Supplies

Material and supplies are stated at average moving cost.

Deferred Debits

Deferred debits consist primarily of a retirement security prepayment made to ensure proper funding of the Retirement Security Plan which is being amortized over the remaining service life of the employees, generally 15 and 20 years. Deferred debits also include loan conversion fees resulting from the conversion of some long term CFC loans to lower interest rates. Conversion fees are being amortized over the average remaining life of the loans that were converted which was approximately 22 years.

Patronage Capital

The Cooperative operates on a nonprofit basis. Amounts received from the furnishing of electric energy in excess of operating costs and expenses are assigned to patrons on a patronage basis. All other amounts received by the Cooperative from its operations in excess of costs and expenses are also allocated to its patrons on a patronage basis to the extent they are not needed to offset current or prior losses, at the discretion and determination of the board of directors.

Revenue Recognition and Unbilled Revenues

The Cooperative recognizes revenue on members' unbilled accounts based upon estimated usage in the current billing cycle.

Power Costs

Power costs include all power delivered to the Cooperative, regardless of whether the power supplier has billed the Cooperative for power delivered.

Deferred Credits

Deferred credits consist primarily of deferred gains on early extinguishment of debt, deferred gains related to insurance proceeds, customer advances on construction, advance payments made by consumers in connection with electric service, unclaimed capital credit checks and over collection of costs related to the energy optimization program. Deferred gains on early extinguishment of debt are amortized over the remaining term of the original debt. Deferred gains from insurance proceeds are amortized over the useful lives of the assets replaced.

Post-Retirement Benefits

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after obtaining age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death. The Cooperative's share of the estimated costs of benefits that will be paid after retirement is being accrued by charges to expense accounts over the employees' active service periods to dates they are fully eligible for benefits.

Business and Credit Risk

Financial instruments which potentially subject the Cooperative to concentrations of credit risk consist primarily of temporary cash instruments and trade receivables. The Cooperative provides electrical service on account to its members which are located primarily in the central Michigan area. The Cooperative has established policies for extending the credit based upon factors surrounding the credit risk of specified customers, historical trends and other information. Concentrations of credit risk with respect to trade receivables are limited due to the Cooperative's large number of customers. Nonetheless, the Cooperative's ability to collect from its members is affected by the economic conditions in which it operates.

The Cooperative maintains its temporary cash investments and cash balances with high credit quality financial institutions. Although such investments and cash balances may exceed the federally insured limit of \$250,000 from time to time, they are, in the opinion of management, subject to minimal risk.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Sales Taxes

The Cooperative has customers in a state which imposes a sales tax on certain sales. The Cooperative collects those sales taxes from its customers and remits the entire amount to the state of Michigan. The Cooperative's accounting policy is to exclude the tax collected and remitted from revenue and cost of revenue.

Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures which provides a framework for measuring fair value under generally accepted accounting principles, became effective to Cooperative as of January 1, 2008. In accordance with the provision of ASC 820-10, the Cooperative has deferred the adoption of ASC 820 for one year for non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. Therefore, the Cooperative adopted ASC 820 on January 1, 2009. There was no adjustment to financial assets as a result of the adoption of ASC 820.

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

The Cooperative does not have any assets or liabilities subject to the level 1, 2, or 3 valuation as of December 31, 2015 and 2014 and does not anticipate participating in transactions of this type in the future.

Advertising Costs

Advertising costs are expensed as incurred.

Income Taxes

The Cooperative is exempt from federal income tax under Section 501(c)(12) of the United States Internal Revenue Code, therefore no provision for federal income tax is recorded. However, income from unrelated business activities is subject to income tax at normal corporate rates.

The Cooperative has adopted the provisions of FASB Accounting Standards Codification Topic ASC 740-10, effective January 1, 2009. Implementation resulted in no cumulative effect adjustment to retained earnings as of the date of adoption. The Cooperative had no unrecognized tax benefits as of December 31, 2015 and 2014.

The Cooperative will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if such penalties and interest are incurred. Under normal circumstances, the Cooperative is no longer subject to Federal and State tax examinations by tax authorities for years before 2012.

The Cooperative undergoes an annual analysis of its various tax positions, assessing the likelihood of those positions being upheld upon examination with relevant tax authorities, as defined by ASC 740-10.

Subsequent Events

The Cooperative has evaluated subsequent events through March 25, 2016, the date which the financial statements were available to be issued.

Note 2 - Electric Plant and Depreciation

Major classes of electric plant at December 31, 2015 and 2014 consist of the following:

	2015	2014
General plant	\$ 7,938,392	\$ 8,208,244
Distribution plant	90,565,167	87,753,719
Intangible plant	442,580	411,984
Electric plant in service	98,946,139	96,373,947
Construction in progress	251,363	189,505
Total electric plant	99,197,502	96,563,452
Less accumulated depreciation and amortization	30,807,744	29,674,872
Electric plant - net	\$ 68,389,758	\$ 66,888,580
Electric plant depreciation rates have been applied on a straight-line basis	as follows:	
Structures and improvements	1.9 - 20.0%	
Office furniture equipment	4.0 - 33.3%	
Transportation equipment	10.0 - 20.0%	
Power operated equipment	4.0 - 25.0%	
Communication equipment	10.0 - 33.3%	
Other general plant	4.0 - 10.0%	
Depreciation charges at December 31, 2015 and 2014 were as follows:		
	2015	2014
Charged to operations		
Classified as depreciation and amortization	\$ 2,834,780	\$ 2,882,615
Classified in other operating expenses	33,995	30,077
	2,868,775	2,912,692
Charged to transportation	197,317	212,746
Total	\$ 3,066,092	\$ 3,125,438

Note 3 - Materials and Supplies

Materials and supplies at December 31, 2015 and 2014, consist of the following:

	 2015	 2014
Electric materials Water heaters	\$ 677,518 19,490	\$ 692,078 27,999
	\$ 697,008	\$ 720,077

Note 4 - Investments in Associated Organizations

Investments in associated organizations at December 31, 2015 and 2014 consist of the following:

	2015	2014
Wolverine Power Supply Coop., Inc capital credits National Rural Utilities Cooperative Finance Corporation	\$ 28,695,230	\$ 26,420,592
Capital term certificates maturing at various times through		
October 1, 2080, at interest rates between 0% and 5.0%	1,875,754	1,894,625
Patronage capital credits	1,275,217	1,203,597
Other memberships and investments	30,600	20,600
	\$ 31,876,801	\$ 29,539,414

Note 5 - Deferred Debits

	 2015	 2014
Energy optimization planning and implementation	\$ -	\$ 2,987
Retirement security prepayment	1,913,533	2,057,195
Miscellaneous	-	6,364
Unamortized loan exp - CFC conversion	 244,204	255,741
	\$ 2,157,737	\$ 2,322,287

Note 6 - Investment in Subsidiary

The Cooperative reports its investment in its wholly owned subsidiary, Tri-Co Services, Inc., using the equity method. Accounting principles generally accepted in the United States of America require wholly owned subsidiaries to be consolidated. In arriving at the decision not to consolidate its subsidiary, management concluded that since the primary users of the statements are the Board of Directors, management and members, consolidation of the subsidiary's statements would tend to obscure the financial position and activities of the Cooperative. Inclusion of the following condensed financial information of the subsidiary as of and for the years ended December 31, 2015 and 2014 permits users of these statements to be more fully informed. Financial information related to Tri-Co Services, Inc. at December 31, 2015 and 2014 is as follows:

	2015	2014
Balance Sheet		
Current assets	\$ 4,305,841	\$ 3,935,397
Investments and other assets	4,500,481	4,447,359
	\$ 8,806,322	\$ 8,382,756
Current liabilities	\$ 1,097,591	\$ 990,004
Long-term liabilities	417,500	354,000
Equity	7,291,231	7,038,752
	\$ 8,806,322	\$ 8,382,756
Operations		
Operating revenues	\$ 4,599,189	\$ 5,509,759
Operating expenses	(3,985,227)	(5,266,035)
Other revenue/(expense) - net	(161,483)	(28,151)
Net income/(loss)	\$ 452,479	\$ 215,573

During 2015 and 2014, Tri-Co Services, Inc. declared and paid cash dividends to the Cooperative of \$200,000.

As a result of not consolidating Tri-Co Services, Inc., the Cooperative's financial statements are understated as follows at December 31, 2015 and 2014:

	2015	2014
Assets and liabilities	\$ 1,452,504	\$ 106,879
Revenues and expenses	\$ 4,110,855	\$ 5,275,134

Note 7 - Power Supply Cost Recovery

Up until April 2010 the Cooperative was required by the Michigan Public Service Commission to maintain power supply cost recovery over-collections (PSCR) and refundable customer contributions in restricted accounts to be used only for the purpose for which they are intended. As of April 6, 2010, the Cooperative became self-regulated for rates, billing practices, and accounting standards and is no longer subject to this requirement.

Wolverine Power Supply Cooperative, Inc. and the member-distribution cooperatives including Tri-County Electric Cooperative, Inc. and Subsidiary were required to obtain authority to implement and apply PSCR clauses and monthly factors. Because the Cooperative became self-regulated as noted above, the PSCR clauses and monthly factors were approved by the Board of Directors. Tri-County's average monthly factor for residential customers was .00358 and .00192 per KWH during 2015 and 2014, respectively.

Due to fluctuations in market conditions, over-collections or under-collections could result between the generation cooperative and distribution cooperative as well as between the distribution cooperative and their member-consumers. Power cost recovery over-collections must be remedied by refunds and power cost recovery under-collection must be remedied by additional collections.

Note 8 - Patronage Capital

Patronage capital balances at December 31, 2015 and 2014 consisted of the following:

	2015	2014	
Assignable Assigned to date	\$ 3,577,045 60,576,766	\$ 3,262,973 57,113,793	
Total	64,153,811	60,376,766	
Retired to date	(14,569,215)	(11,962,264)	
Balance	\$ 49,584,596	\$ 48,414,502	

The mortgage provisions restrict the retirement of patronage capital unless, after retirement, the capital of the Cooperative equals at least 20% of the total assets of the Cooperative; provided, however, that retirements can be made if such distributions do not exceed 30% of the preceding year's margins. No distribution can be made if there is unpaid, when due, any installments of principal or interest on the notes or, if after giving effect to any distribution, the total current and accrued assets would be less than the total current and accrued liabilities. During 2015 and 2014, the Cooperative's capital exceeded 20% of total assets.

Note 9 - Other Equities

Other Equities as of December 31, 2015 and 2014 consist of the following:

	2015	2014
Donated capital memberships Retired capital credits - gain Pre 1979 margins	\$ 1,421,752 241,262 1,603,211	\$ 1,310,656 241,262 1,603,211
	\$ 3,266,225	\$ 3,155,129
Other equities from Tri-Co Services, Inc. consist of the following:		
	2015	2014
Tri-Co Services equity Unallocated Tri-Co Services dividend	\$ 7,241,231 200,000	\$ 6,988,752 200,000
	\$ 7,441,231	\$ 7,188,752
Note 10 - Long-Term Debt		
Long-term debt at December 31, 2015 and 2014 is as follows:		
	2015	2014
National Rural Utilities Cooperative Finance Corporation (CFC) notes bearing interest at 1.27% to 5.66% per annum. The notes are payable in installments and mature at various times through		
February 2045.	\$ 47,297,631	\$ 44,721,503
Less current maturities	(2,034,805)	(1,911,049)
Total long-term debt	\$ 45,262,826	\$ 42,810,454

Maturities of long-term debt are as follows:

Year Ending December 31,	Amount
2016	2,034,805
2017	1,525,419
2018	1,565,752
2019	1,607,893
2020	1,670,381
Thereafter	38,893,381
	\$ 47,297,631

The loan agreements with CFC are secured by substantially all assets of the Cooperative and include certain positive and negative covenants with which the Cooperative has complied. Additionally, the Cooperative has available unadvanced loan funds from CFC of \$15,020,682.

The security agreement (mortgage) restricts the Cooperative's debt limit to \$120,000,000.

Note 11 - Lines of Credit

The Cooperative has executed a perpetual, variable rate (2.90% at December 31, 2015) line of credit with CFC, providing it with short-term loans in the total amount of \$5,000,000. There were no outstanding balances on the line at December 31, 2015 and 2014. During 2009, the Cooperative executed an additional variable rate (2.04% at December 31, 2015) line of credit with CFC, providing it with short-term loans in the total amount of \$10,000,000 maturing July 2016. There were no outstanding balances on the line at December 31, 2015 and 2014.

The Cooperative executed a line of credit with Wolverine Power Supply, providing short-term loans in the total amount of \$5,000,000 as of the years ended December 31, 2015 and 2014. The lines are payable within 30 days of demand or in full on December 31, and are renegotiated annually. Interest on each advance accrues monthly at a rate of LIBOR plus 1.25%. There were no outstanding balances on the line as of December 31, 2015 and 2014.

During 2013, the Cooperative executed a variable rate (1.53% at December 31, 2015) line of credit with Tri-Co Services, Inc., a subsidiary of the Company (Note 15) providing it with short-term loans in the total amount of \$2,500,000. This line of credit was renewed as a perpetual, variable rate line of credit in 2015, which is due upon demand. The outstanding balance is \$0 and \$1,200,000 at December 31, 2015 and 2014, respectively.

Note 12 - Retirement Plan

Pension Plan

The National Rural Electric Cooperative Association (NRECA) Retirement Security Plan (RS Plan) is a defined benefit pension plan qualified under Section 401 and tax-exempt under Section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The plan sponsor's Employer Identification Number is 53-0116145 and the Plan Number is 333. A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers.

Tri- County Electric Cooperative, Inc. contributions to the RS Plan in 2015 and in 2014 represented less than five percent of the total contributions made to the plan by all participating employers. Tri-County Electric Cooperative made contributions to the plan of \$720,000 in 2015 and \$700,000 in 2014. In 2013, the Cooperative made a \$2,344,518 prepayment to the National Rural Electric Cooperative Association for the Retirement Security Plan to enhance the Plan's funded status. With this prepayment, the Cooperative will pay 25% lower premiums than cooperatives in the Retirement Security Plan that did not make a prepayment. The prepayment will be amortized based on the average remaining service life of the respective employee groups, 15 and 20 years. The amortization expense was \$144,000 and \$144,000 for the years ended December 31, 2015 and 2014, respectively.

For the RS Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act (PPA) of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the RS Plan was over 80 percent funded on January 1, 2015 and over 80 percent funded on January 1, 2014 based on the PPA funding target and PPA actuarial value of assets on those dates. Because the provisions of the PPA do not apply to the RS Plan, funding improvement plans and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

Savings Plan

In addition to the above retirement plan, employees of the Cooperative are eligible to participate in the NRECA 401(k) Pension Plan. In 2015, the Cooperative made contributions equal to 4.0% of each employee's base wages. This Cooperative match was an increase from 2014 which was 3.0%. Employees are required to contribute 4.0% of base pay and may voluntarily contribute more if desired. The Cooperative made contributions of \$166,600 and \$122,600 in 2015 and 2014, respectively.

Note 13 - Post-Retirement Benefits other than Pensions

The Cooperative sponsors an unfunded defined benefit post-retirement health plan that covers certain employees who retire after reaching age 62 and 15 years of service. Spouses of beneficiaries are also included, with coverage continuing to the spouse after the beneficiaries' death.

The following table sets forth the change in the post-retirement benefit obligation reconciled with the obligation recognized in the accompanying balance sheet at December 31:

	2015		2014	
Change in post-retirement benefit obligation Accumulated post-retirement benefit				
obligation at beginning of year	\$	970,738	\$	936,783
Service cost		1,695		1,786
Interest cost		46,081		48,537
Actuarial (gain) loss		(14,282)		69,909
Benefits paid		(82,603)		(86,277)
Accumulated post-retirement benefit obligation at end of year	\$	921,629	\$	970,738
The plan is unfunded at December 31, 2015.				
Weighted average assumptions as of December 31:				
		2015		2014
Discount rate		4.24%		3.81%

For measurement purposes, a 20.0% annual rate of increase in the cost of covered health care benefits was assumed. The health care cost trend rate assumption has a significant effect on the calculated liability. The Plan does cap monthly health insurance premium costs for both individuals and families for employees that retired after a specific date. A one-percentage point change in assumed health care costs would have the following effect:

	1% Point Increase		1% Point Decrease	
Effect on total service and interest cost components	\$	1,010	\$	(970)
Effect on post-retirement benefit obligation	\$	20,183	\$	(19,410)

19

Note 14 - Deferred Credits

2015		2014		
Customer construction deposits	\$	356,400	\$	363,176
Consumer energy prepayments		319,842		279,745
Unamortized gain on reacquired debt		75,740		171,986
Regulatory liability for fire		101,106		104,609
Energy optimization accrual		665,222		614,221
Unclaimed capital credits		1,068,341		799,106
Prepaid community solar garden investment		21,763		16,076
Total deferred credits	\$	2,608,414	\$	2,348,919

Note 15 - Related Party Transactions

The Cooperative provides Tri-Co Services, Inc. a wholly owned subsidiary, with personnel, office space, and other administrative support. Amounts reimbursed for these services during 2015 and 2014 totaled approximately \$955,701 and \$946,417, respectively. Amounts due (to) from Tri-Co Services, Inc. amounted to \$(62,587) and \$(37,125) at December 31, 2015 and 2014, respectively.

The Cooperative collects and remits voluntary contributions to the Tri-County Electric People Fund, Inc. (the Fund), a 501 (c)(3) nonprofit organization organized for charitable giving to individuals and organizations in the Cooperative's service area.
