STEP I: PRE-ENVIRONMENTAL REVIEW.

A. Sponsor should obtain and familiarize themselves with the following documents which are available from MSHDA’s web site:

1. List of MSHDA prequalified consultants.
2. MSHDA Environmental Review Requirements for 2013.
5. MDEQ document entitled “IMPORTANT NOTICE for Baseline Environmental Assessments (BEAs)”
6. When applicable; HUD’s Chapter 9 Environmental Review Process.
7. NEPA Report Requirements and Sample Report.
8. CDBG Guidebook the “Green” guidebook
STEP IIA: MSHDA PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT REQUIRED FOR INTAKE AND/OR TAX CREDIT APPLICATIONS.

SPONSOR
Retains environmental consultant to perform AAI Phase I report meeting MSHDA Environmental Review requirements and submits report to MSHDA.

> MSHDA Phase I review.

If deficiencies in Phase I ESA are identified, written comments and follow-up provided to Sponsor.

If Recognized Environmental Conditions (RECs) identified, a Phase II is requested of the Sponsor. Proceed to Step III.

<

If no RECs identified and no written report issued for follow up, approval given. **Phase I Process Completed.** Estimated MSHDA review time frame: 15 business days.
STEP IIB: NEPA REPORT REQUIRED FOR INTAKE AND OR TAX CREDIT APPLICATIONS REQUESTING ANY SOURCE(S) OF FEDERAL FUNDS SUCH AS HOME, SECTION 8, NSP or CDBG.

**SPONSOR**
Retains environmental consultant to prepare NEPA documentation per HUD requirements.

**MSHDA**
Review NEPA report for accuracy. If NEPA is not complete, then MSHDA to provide written comments to have the report corrected and resubmitted. *Estimated MSHDA review time frame: 15 business days.*

Sponsor’s Consultant corrects report and resubmits if necessary.

Review NEPA and issue appropriate finding, and begin publishing process. Upon completion of public notice period, MSHDA to request HUD approval. **NEPA process completed.** *(Estimated turnaround is 45 days, if no public comment is received.)*
**STEP III: IF RECs ARE IDENTIFIED IN THE PHASE I REPORT, A PHASE II REPORT IS REQUIRED.**

</tr>
</tbody>
</table>

If Phase II work shows that site is not a “Facility,” Sponsor provides final Phase II report to MSHDA.

If site is shown to be a “Facility,” proceed to Step IV.

If site requires further Phase II investigation work, proceed to Step IIIA.

---

\(^1\) MSHDA Review Team comprised of three members: MSHDA environmental attorney, MSHDA’s Executive Director or his appointed designee as Certifying Officer for the use of federal funds, and the MSHDA Director for Community Development. The Review Team’s responsibilities are to include: making recommendations to the Loan Committee on whether to approve/reject a project based on the environmental issues that need to be addressed, approving all environmental guidance documents, approving the MSHDA prequalified consultant list and making recommendations to the MSHDA Board of Directors and MSHDA Loan Committee as necessary for policy decisions, and signing for the release of federal funds. The Review Team will meet as needed.
**STEP IIIA:** IF ADDITIONAL PHASE II WORK IS NEEDED (TO RESOLVE REC’S or DEFINE EXTENT OF CONTAMINATION) OR ADDITIONAL REMEDIAL ACTIVITY IS REQUIRED, SUBMIT SOW/WORK PLAN.

</tbody>
</table>
STEP IV: IF THE SITE IS A “FACILITY,” THE SPONSOR’S CONSULTANT PREPARES AND SUBMITS BASELINE ENVIRONMENTAL SITE ASSESSMENT (BEA) AND DUE CARE COMPLIANCE ANALYSIS TO MDEQ FOR “RESPONSE ACTIVITY PLAN” REVIEW. MDEQ APPROVAL OF THE DUE CARE PLAN MUST BE OBTAINED PRIOR TO INITIAL CLOSING AND/OR THE ISSUANCE OF THE TAX CREDIT RESERVATION LETTER.

**SPONSOR**
Sponsor’s Consultant prepares and discloses BEA to MDEQ.

Due Care Plan or Remediation Plan to be submitted to MDEQ for Response Activity Plan review. Environmental Consultant to coordinate activities in a timely manner to minimize delays.

**MSHDA**
The BEA and Due Care or Remediation Plan with required MDEQ submittal forms are submitted by the Sponsor. MSHDA records receipt of documents for tracking purposes. A Due Care Plan is not required if a remedial action is planned to eliminate facility status. If the sponsor chooses to clean up the site, they will submit a Remediation Plan to MDEQ for review.

If federal funding is involved, the Due Care plan will need to meet federal standards which in some cases are stricter than MDEQ requirements.

Sponsor to provide MDEQ Due Care Plan approval letter. Sponsor obtains bid(s) for Due Care response activities and revised Trade Payment Breakdown (TPB) line item to show environmental cost.

Sponsor submits a copy of MDEQ’s plan review approval letter and a copy of bids for the environmental work required for Due Care or Remediation.

Once Due Care and/or Remediation Activities are complete, proceed to Step V.
STEP V: UPON COMPLETION OF APPROVED DUE CARE PLAN OR REMEDIAL ACTION PLAN ACTIVITIES, THE SPONSOR’S CONSULTANT PREPARES AND SUBMITS “A NO FURTHER ACTION REPORT” TO MDEQ. MDEQ’S “NO FURTHER ACTION” (NFA) LETTER IS REQUIRED PRIOR TO FINAL CLOSING AND/OR THE ISSUANCE OF THE TAX CREDIT (8609).

**SPONSOR**
Sponsor prepares and submits a “No Further Action Report” to MDEQ for the purpose of obtaining a No Further Action (NFA) Letter showing that Due Care response activities or remedial actions are in place and have been completed.

**MSHDA**
MSHDA receives and records MDEQ’s No Further Action (NFA) letter and updates NEPA documentation in the project folder. Environmental review process completed.

If NFA letter can not be obtained, Sponsor proceeds to MSHDA Review Team to determine next steps, if any.
