RE: IDIS Conversion from Legacy to On-Line

HUD and MSHDA are in the process of preparing for the migration from HUD's current IDIS system (Legacy) to IDIS On-Line. We anticipate the migration to be complete on August 14th. Neither IDIS system will be available to MSHDA from August 3 through August 14th.

What does this mean to you?

Setting up New Grants and Activities – MSHDA will NOT be able to set-up new grants or activities August 3 – 14, 2009. Grantees should plan accordingly.

Revising Existing Grants and Activities – MSHDA will be able to approve revisions to existing grants and activities, however, those revisions will be logged by MSHDA and entered on to IDIS On-Line once the migration is complete. Therefore, we ask that revisions be kept to a minimum from August 3 – 14, 2009. Grantees should plan accordingly.

FSR/Payment Requests – MSHDA will be able to process payments to our grantees without interruption.
